in the earlier Middle Ages For the fuller understanding of the social life of our ancestors this book contributes information of the most luminous character It will serve also as an example and pattern for young and earnest students of real history the history of ordinary human beings rather than of generals and of kings And it must be added that although the division into numerous headings leads to frequent repetitions of the names and characters of institutions of the nature of Hospitals it has the great advantage of reducing to order a mass of material which might under less careful treatment have had a chaotic appearance As a book of reference for readers and writers this treatise on the Medi val Hospitals of England ought to hold a distinguished place     **The Old Service-books of the English Church** Christopher Wordsworth, Henry Littlehales, 1904

Jung, 2009-07 *Lines of Neutrality* is a window into the lives of two modern day assassins Raven Yin and Christian Delacroix Unbeknownst to either of them they are both hired to kill the same mark and coincidentally choose the exact same night and time to strike This begins a chain of events that brings Raven and Christian together to fight a war far larger and more complex than either of them could have imagined It is a war being waged against secret societies whose agendas are more enigmatic than their rumored existence Their personalities and methods are fundamentally different yet each of them discovers more about themselves by studying the other Despite secret societies internal betrayal stolen memories and personal battles Raven and Christian defy the odds to show that the Society of Assassins is nobody's pawn     **The Spectator** ,1888     *Parish Life in Mediaeval England* Francis Aidan Gasquet, 1909     **The Academy** ,1883
