internationaux pour l'Union européenne. Les objectifs internationaux de l'Union européenne ayant trait aux institutions dans un souci de cohérence et enrichis par le Traité de Lisbonne, ceux-ci ont rassemblés autour des priorités contemporaines qui sont le développement durable à court terme dans ses dimensions économique, sociale et environnementale et le maintien de la paix et de la sécurité internationale. Chacune de ces deux questions a pour objet d'une part de communications et d'autre part de tables rondes rassemblant des personnalités provenant de trois catégories exprimant leur point de vue sur l'action internationale de l'Union. Cet ouvrage interroge donc autant le nouveau statut de sujet de droit international de l'Union européenne que le rôle de cette entité sur la scène internationale. Cet ouvrage est principalement destiné aux chercheurs et enseignants chercheurs aux doctorants et aux étudiants de master 1 et master 2 droit de l'Union européenne, droit international, environnement et développement durable, sécurité et défense des facultés de droit et des sciences politiques des instituts d'études politiques et des grandes écoles.

*Les accords internationaux de l'Union européenne* Niki Aloupi, Cécile Rapoport, Christine Kaddous, 2019-08-06

Les accords internationaux de l'UE n'auront plus de secret pour vous. Le présent volume est consacré aux accords internationaux de l'Union et aborde des thématiques qui traversent les divers domaines des relations extérieures de l'Union : les compétences externes, la procédure de conclusion des accords internationaux, les accords d'association et les accords mixtes. Cet ouvrage de référence, destiné en particulier aux chercheurs et aux praticiens du droit, traite la matière de façon approfondie et s'appuie sur un ensemble impressionnant de références, la pratique décisionnelle, la jurisprudence et la doctrine.

**EXTRAIT**

La notion de compétences est au cœur du système communautaire et aujourd'hui de l'Union européenne. Mais sa prise en compte par les traités n'a été faite que progressivement jusqu'au traité de Lisbonne. La Cour de justice des Communautés européennes spécialement propos des compétences externes a pallié les lacunes du traité CEE et a levé ses approximations. Elle a ainsi rigoureusement systématisé des compétences externes dont on trouve un exposé particulièrement clairant dans l'avis 2/94. Pour tout accord que la Communauté européenne entendait conclure il tait donc nécessaire de procéder sur la base des possibilités offertes par le traité et précisément par la jurisprudence une identification de la compétence communautaire du point de vue de son existence et de son tendue dans un premier temps puis de sa nature dans un second temps afin de savoir si la Communauté pouvait s'engager au plan international et si oui seule ou avec ses Etats membres.

Le traité de Lisbonne apporte des nouveautés importantes en matière externe. Le traité sur l'Union européenne TUE comporte notamment l'article 21 TUE un nonc des principes et objectifs que l'Union européenne qui succède à la Communauté européenne et dispose expressément de la personnalité juridique devra respecter dans l'ensemble de son action extérieure et le traité sur le fonctionnement de l'Union TFUE prévoit désormais une cinquième partie spécifique intitulée "L'action extérieure de l'Union" dont est cependant exclue la politique étrangère et de la sécurité commune PESC. Celle-ci traitée dans le TUE conserve son particularisme institutionnel en dépit de la disparition des piliers. Du point de vue des compétences plus précisément le traité de Lisbonne adopte également une démarche tout fait nouvelle par rapport aux traités initiaux en procédant à une synthétisation.

qui touche les compétences internes mais aussi externes dans la mesure où comme l'avait relevé la Cour le respect de ce principe des compétences d'attribution s'impose tant pour l'action interne que pour l'action internationale. Toutefois il s'agit d'une des compétences externes certaines particularités largement inspirées par les acquis juridictionnels complètent le dispositif général.

**Criminal law between war and peace** Stefano Manacorda, Adán Nieto Martín, 2009. If subjecting war to law is one of the most important legal achievements of the 20th century progressing further in that direction is one of the most important challenges for the 21st century. The problems it poses are many: the term war has formally fallen into disuse and we talk about peacekeeping; armies are today the product of cooperation between states and international organizations; private contractors increasingly participate in warlike activities as the case of the Iraq war demonstrates; and the lines between war and very serious forms of crime, terrorism, organized crime are increasingly blurred. This volume compiles the contributions presented at XVth International Congress on Social Defence and tackle the criminal legal issues raised by these new scenarios. It constitutes an innovative volume gathering together the work of both academic and military authors who have drawn on their theoretical and practical experience.
