Memo Geography 2014 December:

Children of Migrants in China Kam Wing Chan, Yuan Ren, 2020-11-25 Children are precious in China especially as its population ages rapidly The unprecedented fast urbanization and massive internal migration have profoundly changed almost every aspect of society They have impacted the livelihood of children of migrants most Because of the hukou system and related policies China s internal migrants face major obstacles to assimilate into cities But more than that as this book shows these policies have also torn families apart on a scale unseen heretofore More than 100 million children grow up in unstable families and the great majority have suffered from prolonged separation from their parents in the migratory upheaval This book provides an updated analysis of this mega and painful process unfolding at various geographical scales The chapters revolve around the central notion of family togetherness or the lack thereof The book measures dissects and analyses the impacts of migration on children and recommends policies to address major problems from a variety of disciplinary perspectives employing different methodologies The problems faced by the children of migrants remain enormous and it is a looming huge crisis in the making If unaddressed those problems can damage a whole generation with serious consequences The chapters in this book were first published in Eurasian Geography and Economics [Making Education Work for the Poor](#) Willliam Elliott, Melinda Lewis, 2018-07-03 Making Education Work for the Poor identifies wealth inequality as the gravest threat to the endangered American Dream Though studies have clearly illustrated that education is the primary path to upward mobility today educational outcomes are more directly determined by wealth than innate ability and exerted effort This accounting directly contradicts Americans understanding of the promise the American Dream is supposed to offer a level playing field and a path towards a more profitable future In this book the authors share their own stories of their journeys through the unequal U S education system One started from relative privilege and had her way to prosperity paved and her individual efforts augmented by institutional and structural support The other grew up in poverty and had to fight against currents to complete higher education only to find his ability to profit from that degree compromised by student debt To directly counter wealth inequality and make education the great equalizer that Americans believe it to be this book calls for a revolution in financial aid policy from debt dependence to asset empowerment The book examines the evidence base supporting Children s Savings Accounts including CSAs demonstrated potential to improve children s outcomes all along the opportunity pipeline early education school achievement college access and completion and post college financial health It then outlines a policy that builds on CSAs to incorporate a sizable progressive wealth transfer This new policy Opportunity Investment Accounts is framed as the cornerstone of the wealth building agenda the nation needs in order to salvage the American Dream Written by leading CSA researchers the book includes overviews of the major children s savings legislation proposed in Congress and the key features of prominent CSA programs in operation around the country today as well as new qualitative and quantitative CSA research The book ultimately presents a critical development of the theories that together

explain how universal progressive asset based education financing could make education work equitably for all American children Red, White, and Black Robert L. Woodson, Sr.,2021-05-11 In the rush to redefine the place of black Americans in contemporary society many radical activists and academics have mounted a campaign to destroy traditional American history and replace it with a politicized version that few would recognize According to the new radical orthodoxy the United States was founded as a racist nation and everything that has happened throughout our history must be viewed through the lens of the systemic oppression of black people Rejecting this false narrative a collection of the most prominent and respected black scholars and thinkers has come together to correct the record and tell the true story of black Americans in all its complexity diversity of experience and poignancy Collectively they paint a vivid picture of black people living the grand American experience however bumpy the road may be along the way But rather than a people apart blacks are woven into the united whole that makes this nation unique in history Featuring Essays by John Sibley Butler Jason D Hill Coleman Cruz Hughes John McWhorter Clarence Page Wilfred Reilly Shelby Steele Carol M Swain Dean Nelson Charles Love Rev Corey Brook Stephen L Harris Harold A Black Stephanie Deutsch Yaya J Fanusie Ian Rowe John Wood Jr Joshua Mitchell Robert Cherry Rev DeForest Black Soaries Jr Putin's Olympics Robert W. Orttung,Sufian Zhemukhov,2017-02-24 President Vladimir Putin s Olympic venture put the workings of contemporary Russia on vivid display The Sochi Olympics were designed to symbolize Russia s return to great power status but subsequent aggression against Ukraine large scale corruption and the doping scandal have become the true legacies of the games The Kremlin s style of governance through mega projects has had deleterious consequences for the country s development Placing the Sochi games into the larger context of Olympic history this book examines the political security business ethnic societal and international ramifications of Putin s system

Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd,2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees

and labour migrants although the focus is largely on the former. Despite the fact that most of the empirical studies are drawn from within Europe, the book also includes research on Nepal, Australia, the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this. Content: INTRODUCTION by Arman Teke Lloyd; PART A: Ideology and Governance of Migration; CHAPTER 1: Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe: Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin; CHAPTER 2: A Forest with many trees: Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli, Rebecca Mavin and Giorgia Trasciani; CHAPTER 3: Policing Migrants in Transit and Upon Arrival: The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson; PART B: Regulations: Suspension of Human Rights; CHAPTER 4: Borders: Exception and Sovereignty: Australia's Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu; CHAPTER 5: Power and Sandwiched Sovereignty: Nepali Migrant Workers in the Gulf Countries by Hari KC; CHAPTER 6: The Body and Embodied Experiences in the British Asylum System: Developing a Conceptual Perspective by Rebecca Mavin; CHAPTER 7: Eritrean Unaccompanied Refugee Minors in The Netherlands: Wellbeing and Health by Anna de Haan, Yodit Jacob, Trudy Mooren and Winta Ghebreab; PART C: Migrants: Strategies and Identities; CHAPTER 8: Social Inclusion Processes for unaccompanied minors in the city of Palermo: Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou; CHAPTER 9: Urban Resistances and Migrant Activism: Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas; CHAPTER 10: RefConnect: A Mobile Social Network for Refugees by Evdokia Kogia, Styliani Liberopoulou, Nikolaos Alamanos, Vasilis Pierros and Christos Michalakelis; CHAPTER 11: Halo Halo: Nostalgia and Navigating Life for Overseas Filipino Workers (OFWs) in the Kingdom of Saudi Arabia by Simeon S. Magliveras.

Towards a Cultural Politics of Climate Change by Harriet Bulkeley, Matthew Paterson, Johannes Stripple, 2016-09-15. *Towards a Cultural Politics of Climate Change* provides a new perspective on how climate change matters in policy making, business and everyday life. It argues that the work of low carbon transitions takes place through the creation of devices, the mobilisation of desires and the articulation of dissent. Using case studies from the US, Australia and Europe, the book examines the creation and contestation of new forms of cultural politics of how a climate changed society is articulated, realized and contested. Through this approach, it opens up questions about how, where and by whom climate politics is conducted and the ways in which we might respond differently to this societal challenge. This book provides a key reference point for the emerging academic community working on the cultural politics of climate change and a means through which to engage this new area of research with the broader social sciences.

Deepening Neoliberalism, Austerity, and Crisis by Julien Mercille, Enda Murphy, 2015-07-07. From bank bailouts to austerity, Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors, financiers, bankers and the privileged are protected. The authors

expose the class based nature of Ireland's crisis resolution **Self-Determination in the early 21st Century** Uriel Abulof, Karl Cordell, 2018-02-02 In a world in which change is constant the principle of self determination is important Through collective acts of self determination nations exercise the right to govern themselves At present the nation state system with which we are familiar faces several challenges In Western Europe sub state nationalism is on the rise In the Middle East and North Africa the state system bequeathed by former colonial powers faces increasing threats from pan Islamist movements Overall the established order faces unprecedented uncertainties The scholars who have contributed to this volume assess the merits limitations and trajectories of self determination in the twenty first century pointing to the paradoxes and anomalies that are encompassed by what at first sight is a simple and seductive concept From the perspective of the twenty first century and informed by a wealth of experience each of the contributors to this volume offers some valuable and intriguing observations on the future of self determination and the movements its call engenders This book was published as a special issue of *Ethnopolitics* **Cash Not Care** Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional a disabled female veteran and an independent researcher This book is the culmination of six years of self funded research and the evidence exposes the influence of corporate America since 1992 with the future welfare reforms of the UK The impact of the enforced austerity measures of the UK government is identified as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people Endorsed by the disabled community and by academics the research has identified the adoption of lethal social policies copied from American social security policies and linked to the death of thousands of the most vulnerable of all as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government **Kyrgyzstan - Regime Security and Foreign Policy** Kemel Toktomushev, 2016-10-04 Kyrgyzstan is an interesting example of a relatively weak state which for its brief period of independence has already ousted two presidents experienced two revolutions survived two interethnic conflicts and yet remained intact This book explores this apparent paradox and argues that the schism between domestic and international dimensions of state and regime security is key to understanding the nature of Kyrgyz politics The book shows how the foreign policy links to the Manas Air Base used by the US military and essential for supplying their forces in Afghanistan the economic arrangements necessary for sustaining the base both inside and outside Kyrgyzstan and the myriad of different actors involved in all this combined to overshadow points of friction to ensure stable continuance of the status quo Overall the book shows how broad geopolitical forces and complex local factors together have a huge impact on the formation of Kyrgyz foreign policy **Legal Phantoms** Susan Bibler Coutin, Jennifer M. Chacón, Stephen Lee, 2024-01-30 The 2012 Deferred Action for Childhood Arrivals DACA program was

supposed to be a stepping stone a policy innovation announced by the White House designed to put pressure on Congress for a broader lasting set of legislative changes Those changes never materialized and the people who hoped to benefit from them have been forced to navigate a tense and contradictory policy landscape ever since haunted by these unfulfilled promises Legal Phantoms tells their story After Congress failed to pass a comprehensive immigration bill in 2013 President Obama pivoted in 2014 to supplementing DACA with a deferred action program known as DAPA for the parents of citizens and lawful permanent residents and a DACA expansion DACA in 2014 But challenges from Republican led states prevented even these programs from going into effect Interviews with would be applicants immigrant rights advocates and government officials reveal how such failed immigration reform efforts continue to affect not only those who had hoped to benefit but their families communities and the country in which they have made an uneasy home Out of the ashes of these lost dreams though people find their own paths forward through uncharted legal territory with creativity and resistance **FCC Record** United States. Federal Communications Commission,2012 **The Drone Memos** Jameel Jaffer,2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens Publishers Weekly starred review In the long response to 9 11 the US government initiated a deeply controversial policy of targeted killing the extrajudicial execution of suspected terrorists and militants typically via drones A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned In The Drone Memos civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of The Nation *Healthy, Resilient, and Sustainable Communities After Disasters* Institute of Medicine,Board on Health Sciences Policy,Committee on Post-Disaster Recovery of a Community's Public Health, Medical, and Social Services,2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given

the high costs both economic and social of poor health. Instead, it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo. Capitalizing on these opportunities can advance the long-term health resilience and sustainability of communities, thereby better preparing them for future challenges. *Healthy Resilient and Sustainable Communities After Disasters* identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents. This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments. The conceptual framework presented in *Healthy Resilient and Sustainable Communities After Disasters* lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery. *Healthy Resilient and Sustainable Communities After Disasters* calls for actions at multiple levels to facilitate recovery strategies that optimize community health. With a shared healthy community vision, strategic planning that prioritizes health and coordinated implementation, disaster recovery can result in communities that are healthier, more livable places for current and future generations to grow and thrive, communities that are better prepared for future adversities.

Libya in the Arab Spring Ramazan Erdağ, 2017-03-22 By examining Libya's security architecture before and after the North Atlantic Treaty Organization (NATO) intervention in 2011, this book aims to answer three questions: First, what were the security patterns in Libya within the Middle East security complex before the Arab Spring? Second, to what extent did the Arab Spring and the revolution and intervention processes in Libya affect this security architecture? And third, what are the implications of the Libyan revolution and the NATO intervention on regional security and on the security sub-complexes of the Middle East in the post-Arab Spring era? The author addresses these issues by providing a micro-level analysis of enmity patterns, power distribution, and external power interests.

THE EYES, 2024-03-18 *THE EYES* is one of the best anthologies compiled by the Indo-American author Clochard. Many famous National as well as international authors have written their best writeups in this anthology, including Clochard himself.

Core-Periphery Patterns across the European Union Adelaide Duarte, Gabriela Carmen Pascariu, 2017-08-25 In this new work, Pascariu and Duarte, along with an international group of acclaimed scholars, delve into key challenges currently facing the European Union. They analyze the effect of peripherality across the EU regions, which will be of great interest to those countries and regions facing a process of integration.

Federal Register, 2013-03 **Memos from a Theatre Lab: Spaces, Relationships, and Immersive Theatre** Nandita Dinesh, 2018-03-15 Drawing from Dinesh's findings in *Memos from a Theatre Lab*, Exploring What Immersive Theatre Does, this practice-based research project, second in an envisioned series of Immersive Theatre experiments in Dinesh's theatre laboratory, considers the potential impact of pre-existing relationships between actors.

spectators and performance spaces when using immersive theatrical aesthetics toward educational and or socio political objectives

Memos from a Theatre Lab Spaces Relationships and Immersive Theatre explores the following questions When audience members do not know the actors outside the milieu of a theatrical performance does an immersive form hold different implications than if performers and spectators know each other in real life When actors and spectators are strangers to each other are performers more or less likely to judge the responses that are given to them within an immersive scenario What kinds of immersive situations especially in Applied Theatre interventions might benefit from the presence or absence of a pre existing relationship between performers audience members and the spaces in which these experiences occur In describing the processes involved in designing such an experiment crafting the relevant immersive performances and gathering analysing data from actors and spectators this book puts forward strategies for students researchers and practitioners who seek to better understand the form of Immersive Theatre

How to Disappear Akiko Busch, 2020-02-11 It is time to reevaluate the merits of the inconspicuous life to search out some antidote to continuous exposure and to reconsider the value of going unseen undetected or overlooked in this new world Might invisibility be regarded not simply as refuge but as a condition with its own meaning and power The impulse to escape notice is not about complacent isolation or senseless conformity but about maintaining identity autonomy and voice In our networked and image saturated lives the notion of disappearing has never been more alluring Today we are relentlessly encouraged even conditioned to reveal share and promote ourselves The pressure to be public comes not just from our peers but from vast and pervasive technology companies that want to profit from patterns in our behavior A lifelong student and observer of the natural world Busch sets out to explore her own uneasiness with this arrangement and what she senses is a widespread desire for a less scrutinized way of life for invisibility Writing in rich painterly detail about her own life her family and some of the world s most exotic and remote places she savors the pleasures of being unseen Discovering and dramatizing a wonderful range of ways of disappearing from virtual reality goggles that trick the wearer into believing her body has disappeared to the way Virginia Woolf s Mrs Dalloway finds a sense of affiliation with the world around her as she ages Busch deliberates on subjects new and old with equal sensitivity and incisiveness

How to Disappear is a unique and exhilarating accomplishment overturning the dangerous modern assumption that somehow fame and visibility equate to success and happiness Busch presents a field guide to invisibility reacquainting us with the merits of remaining inconspicuous and finding genuine alternatives to a life of perpetual exposure Accessing timeless truths in order to speak to our most urgent contemporary problems she inspires us to develop a deeper appreciation for personal privacy in a vast and intrusive world
