

After my hair grew long and bushy, I wanted to cut it. There was no barber shop that spoke any of the languages I know, so I had to do it by myself. I cannot say I did a good job, but it dawned on me how my responsibility was crawling into my young adult life. I felt deserted, like one dropped in the middle of a desert and left to survive. I was on my own. Surviving independently in a foreign land where few of my kind existed, so privileges like a barber shop or family to do things for me were nonexistent. I had finally been left out to fly with my wings, and it took an emotional toll on me.

I traveled to Florence once. Humanity is truly a mass of people with different faces and desires. People there seemed to be doing wherever their passion took them, and they looked happy. It was the kind of place where anybody could be anything. The place where determination takes you places unimaginable. There was busy traffic, many skyscrapers. A lot of businesses. Early ours and late nights of toil. Florence is a place of happening. People were winning in life. There is nothing as beautiful as people doing exactly what they want to do. They radiate some energy and happiness. What matters is your abilities and how well you have refined them. Just that, and you have made it in Florence.

### **Conclusion**

To this point in life, I can confidently say that I have lived. My hike in the Himalayas gave me resilience. I was wasted away, but I kept on going until I was through. It taught me teamwork as I had to keep my family close through it all, helping one another. My few travels left me an open-minded person. I saw how different people lived and in a certain unique order. I came to know the diversity of humanity. Some of those things I shun but I appreciate most. I have come to love the beauty of diversity. I got to find myself after I found out that art was not my specialty after all. Then I found physics, and from then it has been a truck that only goes up. That is the good thing about hitting rock bottom; you can only go up. The International school brought cultures right to my face and fed them to me. I had to live with them and appreciate

and Barsden's participation in a Tahitian civil war. The author assesses the value of memoirs and of these memoirs in particular to students of history in respect to the transnational paradigm. He tests the historicity and veracity of their contents and provides an engaging exegesis and graphical supplement of its contents. Of central importance is Barsden's account of the Battle of Fe'i Pi which was in many respects the Pacific's equivalent to the contemporaneous Battle of Waterloo such was its lasting impact on Pacific geopolitics. This was no ordinary childhood and poses many questions about a transnational adolescent's impact on major events. A fascinating read for scholars and students of Australian Pacific and British Colonial History written with academic rigour but accessible to non specialists. *Corps Papers, and Memoirs on Military Subjects*, 1850

**The Works. Containing Interesting and Valuable Papers, Not Hitherto Published. With Memoir of the Author, by Thomas Roscoe** Jonathan Swift, 1841 *Writing Widowhood* Jeffrey Berman, 2015-10-07

Explores how memoirs of widowhood can help us understand the reality of bereavement and the critical role of writing and reading in recovery. The death of a beloved spouse after a lifetime of companionship is a life-changing experience. To help understand the reality of bereavement, Jeffrey Berman focuses on five extraordinary American writers: Joan Didion, Sandra Gilbert, Gail Godwin, Kay Redfield Jamison, and Joyce Carol Oates, each of whom has written a memoir of spousal loss. In each chapter, Berman gives an overview of the writer's life and art before widowhood, including her early preoccupation with death, and then discusses the writer's memoir and her life as a widow. He discovers that writing was for all of these authors both a solace and a lifeline, enabling them to maintain bonds with their lost loved ones while simultaneously moving on with their lives. These memoirs of widowhood, Berman maintains, reveal not only courage and resilience in the face of loss but also the critical role of writing and reading in bereavement and recovery. *Writing Widowhood* is a stunning achievement that combines biography, literary history, and theoretical and philosophical exploration into the nature of grief as well as mental illness, all seamlessly executed. Berman elegantly and lucidly conveys a range of theories and perspectives to suit both academic and general readers. Berman never compromises complexity while remaining accessible and straightforward throughout. Virginia L. Blum, author of *Flesh Wounds: The Culture of Cosmetic Surgery*. *Writing Widowhood* contributes to the field of autobiography, biography, and particularly to women's writing within that generic field by discussing five memoirs which Berman categorizes as the widow memoir. No other critic that I know has shaped commentaries into a newly defined genre. Berman's book thus makes an important contribution to the overall field. *Civil War Writing* Stephen Cushman, Gary W. Gallagher, 2019-03-06 *Civil War Writing* is a collection of new essays that focus on the most significant writing about the American Civil War by participants who lived through it, whether as civilians or combatants, southerners or northerners, women or men, blacks or whites. Collectively, as contributors show, these writings have sustained their influence over

generations and include histories memoirs journals novels and one literary falsehood posing as an autobiographical narrative Several of the works such as William Tecumseh Sherman s memoirs or Mary Chesnut s diary are familiar to scholars but other accounts including Charlotte Forten s diary and Loreta Velasquez s memoir offer new material to even the most omnivorous Civil War reader In all cases a deeper look at these writings reveals why they continue to resonate with audiences more than 150 years after the end of the conflict As supporting evidence for historical and biographical narratives and as deliberately designed communications the writings discussed in this collection demonstrate considerable value Whether exploring the differences among drafts and editions listening closely to fluctuations in tone or voice or tracing responses in private correspondence or published reviews the essayists examine how authors wrote to different audiences and out of different motives creating a complex literary record that offers rich potential for continuing evaluation of the country s greatest national trauma Overall the essays in *Civil War Writing* underscore how participants employed various literary forms to record describe and explain aspects and episodes of a conflict that assumed proportions none of them imagined possible at the outset
