Memorandum Of Rhino Poaching:

Operation Lock and the War on Rhino Poaching John Hanks, 2015-05-08 The aggressive poaching of rhinos needs to be countered with equal aggression So argued Prince Bernhard of the Netherlands the founder president of the World Wide Fund for Nature WWF at a 1987 meeting with John Hanks conservation expert and WWF's head in Africa The result was Operation Lock a secret initiative funded by Prince Bernhard and staffed by former SAS operatives Operation Lock set up headquarters in Johannesburg and extended its reach into neighbouring states Namibia Zambia Botswana Swaziland and Mozambique Its operatives planned to train game rangers to pose as rhino horn traders in order to entrap buyers and to expose the kingpins who were driving the trade It was a controversial approach all the more because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In Operation Lock and the War on Rhino Poaching John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching

Rhino War Johan Jooste, Tony Park, 2022-07-01 In 2012 retired South African general Johan Jooste was parachuted into the seemingly unwinnable war against rhino poaching in the Kruger National Park With poaching spiralling out of control Jooste was given the mandate to go military to convert Kruger's ranger corps into a paramilitary force capable of taking the fight to the poachers Aged 60 white and a veteran with 35 years military service Jooste's controversial appointment was immediately met with resentment and outright hostility by elements of South African National Parks the police and even the military with which he had served With the media government conservationists human rights activists and the people of South Africa looking over his shoulder Jooste had to battle opponents within and without to carry out his strategy for turning the tide on rhino poaching *Rhino War* tells how Jooste facing an unprecedented assault on a national park and a single species turned a force of demoralised men and women into arguably the finest anti poaching unit on the African continent Told through his eyes these stories of the courage and grit of rangers who risked their lives to protect wildlife in the face of a wily and determined foe are an account of heroism sacrifice and determination Humbly honestly and decisively Jooste tells of the successes and failures of his bold strategy and shares his vision for the future

Wildlife Crime Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2012-10-18 Wildlife legislation has become so complex that prosecutions fail and even specialist enforcement professionals struggle to implement it effectively Hundreds of birds of prey have been deliberately poisoned with substances such as carbofuran that have no legal use and the Government could easily make possession an offence The lack of sentencing guidelines on wildlife offences means that some offenders are being neither punished nor deterred in the courts The CPS is also failing to train its prosecutors to handle complex wildlife cases Furthermore the inflexible implementation in UK law of international agreements covering the trafficking of endangered species squanders limited resources The Government has maintained funding for specialist wildlife crime investigation and enforcement but this is provided on an ad hoc basis reducing operational effectiveness Funding provided to monitor wildlife crime on the internet was too short term to attract a suitably qualified individual to fill the post In 2004 the Committee called for a new database to record all wildlife crime but this has still not been introduced Internationally this report also examines how the rhino tiger and elephant are being driven to extinction by growing demand for illegal wildlife products in south east Asia and China The Government needs to exert robust diplomatic pressure in favour of the development and enforcement of wildlife law at the next CITES meeting in March 2013 In particular the Government should focus attention on the damaging effect of one off sales of impounded ivory which has been found to actually fuel demand for ivory products and seek an unequivocal international ban on all forms of ivory trade
