**Forest Management and Planning**  
Pete Bettinger, Kevin Boston, Jacek P. Siry, Donald L. Grebner, 2016-12-29 *Forest Management and Planning* Second Edition addresses contemporary forest management planning issues, providing a concise, focused resource for those in forest management. The book is intermixed with chapters that concentrate on quantitative subjects such as economics and linear programming and qualitative chapters that provide discussions of important aspects of natural resource management such as sustainability. Expanded coverage includes a case study of a closed canopy, uneven-aged forest, new forest plans from South America and Oceania, and a new chapter on scenario planning and climate change adaptation. Helps students and early-career forest managers understand the problems facing professionals in the field today. Designed to support land managers as they make complex decisions on the ecological, economic, and social impacts of forest and natural resources. Presents updated real-life examples that are illustrated both mathematically and graphically. Includes a new chapter on scenario planning and climate change adaptation. Incorporates the newest research and forest certification standards. Offers access to a companion website with updated solutions, geographic databases, and illustrations.

**Failure**  
Vicki E. Alger, 2016-07-01 A comprehensive account and frank assessment of federal involvement in education is long overdue. Education policy expert Vicki E. Alger remedies this deficiency with her book *Failure: The Federal Miseducation of America's Children*. As its title indicates, *Failure* makes no effort to sugarcoat its findings. Created in 1979 after a lobbying campaign that spanned generations, the Department of Education has failed to live up to its promises. Federal involvement, whether related to testing, funding, or academic curricula, has failed to abide by the Constitution's implication that education must remain the domain only of state and local governments and private institutions. Most of all, the central government's pervasive meddling in education has failed America's school children and their parents. Education policy has long been mired in controversies, often with opposing sides missing the mark. *Failure* helps us step back from the skirmish du jour and redirects our focus to the big picture, showing us what's gone wrong over the decades and the institutional causes of these failures. It also offers a bold blueprint for returning the federal government to its constitutional role and for cultivating an educational system that meets the needs of students and parents rather than bureaucrats. Concerned citizens of every stripe will benefit from *Failure's* history of federal education policy, its brutally honest report card for the Department of Education, its look at education systems across the globe, and its ambitious policy recommendations. *Failure* might even succeed in reframing the way the federal education establishment thinks about education policy.

**Handbook of Human and Social Conditions in**

**Assessment** Gavin T. L. Brown, Lois R. Harris, 2016-06-23 The Handbook of Human and Social Conditions in Assessment is the first book to explore assessment issues and opportunities occurring due to the real world of human cultural historical and societal influences upon assessment practices policies and statistical modeling With chapters written by experts in the field this book engages with numerous forms of assessment from classroom level formative assessment practices to national accountability and international comparative testing practices all of which are significantly influenced by social and cultural conditions A unique and timely contribution to the field of Educational Psychology the Handbook of Human and Social Conditions in Assessment is written for researchers educators and policy makers interested in how social and human complexity affect assessment at all levels of learning Organized into four sections this volume examines assessment in relation to teachers students classroom conditions and cultural factors Each section is comprised of a series of chapters followed by a discussant chapter that synthesizes key ideas and offers directions for future research Taken together the chapters in this volume demonstrate that teachers test creators and policy makers must account for the human and social conditions that shape assessment if they are to implement successful assessment practices which accomplish their intended outcomes

**General Education and the Development of Global Citizenship in Hong Kong, Taiwan and Mainland China** Jun Xing, 2013 General Education has taken center stage in the greater China area Hong Kong Taiwan and mainland China because of a number of important developments First globalization has created both opportunities and challenges for college students When they graduate and enter the real world they must have the cultural sensitivities and social skills in addition to their professional training to compete in a knowledge based global economy Equally significant for institutions of higher education pressing global problems challenge traditional disciplines and demand new forms of learning that reshapes the boundaries of knowledge In response to those rapidly changing dynamics general education has taken an increasingly important role in undergraduate education As the first English publication on the subject this anthology brings together a distinguished group of General Education scholars and teachers from Hong Kong Taiwan and mainland China
