

A full-page background image of a snowy forest at night. The trees are heavily covered in snow, and the ground is a smooth, white expanse. Two dark silhouettes of people are walking away from the viewer into the distance. A large, bright full moon hangs in the dark blue sky above the trees.

There is no darkness that
can keep me from your light.

Time, Space and the Human Body: An Interdisciplinary Look Rafael F. Narváez,Leslie R. Malland,2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Concerns about the human body and soul and their relationship to the world around us are as old as Western Culture itself Beyond philosophy and theology these sorts of preoccupations have also marked the arts literature and poetry and to be sure they have influenced Western culture and have marked westerners imaginations and our everyday understanding of human nature This book considers various ways in which the body is and has been addressed and depicted over time and it is also a reflection on the ways in which the very spaces that we design and inhabit likewise reflect perceived ideas and misconceptions about the human body **The Critic** ,1897 **Free Will** Derk Pereboom,2009-11-13 A unique anthology featuring contributions to the dispute over free will from Aristotle to the twenty first century Derk Pereboom s volume presents the most thoughtful positions taken in this crucial debate and discusses their consequences for free will s traditional corollary moral responsibility The Second Edition retains the organizational structure that made its predecessor the leading anthology of its kind while adding major new selections by such philosophers as Spinoza Reid John Martin Fischer Robert Kane Galen Strawson and Timothy O Connor Hackett Readings in Philosophy is a versatile series of compact anthologies each devoted to a topic of traditional interest Selections include classical modern and contemporary writings chosen for their elegance of exposition and success at stimulating thought and discussion

Parzival A Knightly Epic Volume 1 (of 2) (English Edition) Wolfram von Eschenback, Example in this ebook In presenting for the first time to English readers the greatest work of Germany s greatest medi val poet a few words of introduction alike for poem and writer may not be out of place The lapse of nearly seven hundred years and the changes which the centuries have worked alike in language and in thought would have naturally operated to render any work unfamiliar still more so when that work was composed in a foreign tongue but indeed it is only within the present century that the original text of the Parzival has been collated from the MSS and made accessible even in its own land to the general reader But the interest which is now felt by many in the Arthurian romances quickened into life doubtless by the genius of

the late Poet Laureate and the fact that the greatest composer of our time Richard Wagner has selected this poem as the groundwork of that wonderful drama which a growing consensus of opinion has hailed as the grandest artistic achievement of this century seem to indicate that the time has come when the work of Wolfram von Eschenbach may hope to receive from a wider public than that of his own day the recognition which it so well deserves Of the poet himself we know but little save from the personal allusions scattered throughout his works the dates of his birth and death are alike unrecorded but the frequent notices of contemporary events to be found in his poems enable us to fix with tolerable certainty the period of his literary activity and to judge approximately the outline of his life Wolfram s greatest work the Parzival was apparently written within the early years of the thirteenth century he makes constant allusions to events happening and to works produced within the first decade of that period and as his latest work the Willehalm left unfinished mentions as recent the death of the Landgrave Herman of Thuringia which occurred in 1216 the probability seems to be that the Parzival was written within the first fifteen years of the thirteenth century Inasmuch too as this work bears no traces of immaturity in thought or style it is probable that the date of the poet s birth cannot be placed much later than 1170 The name Wolfram von Eschenbach points to Eschenbach in Bavaria as in all probability the place of his birth as it certainly was of his burial So late as the end of the seventeenth century his tomb with inscription was to be seen in the Frauen kirche of Ober Eschenbach and the fact that within a short distance of the town are to be found localities mentioned in his poems such as Wildberg Abenberg Tr hending Wertheim etc seems to show that there too the life of the poet knight was spent By birth as Wolfram himself tells us he belonged to the knightly order Zum Schildesamt bin Ich geboren though whether his family was noble or not is a disputed point in any case Wolfram was a poor man as the humorous allusions which he makes to his poverty abundantly testify Yet he does not seem to have led the life of a wandering singer as did his famous contemporary Walther von der Vogelweide if Wolfram journeyed as he probably did it was rather in search of knightly adventures he tells us Durchstreifen muss Der Lande viel Wer Schildesamt verwalten will and though fully conscious of his gift of song yet he systematically exalts his office of knight above that of poet The period when Wolfram lived and sang we cannot say wrote for by his own confession he could neither read nor write I ne kan decheinen buochstap he says in Parzival and in Willehalm Waz an den buochen steht geschrieben Des bin Ich kunstelos geblieben and his poems must therefore have been orally dictated was one peculiarly fitted to develop his special genius To be continue in this ebook

Wrong-Doing, Truth-Telling Michel Foucault,2014-06-04 Three years before his death Michel Foucault delivered a series of lectures at the Catholic University of Louvain that until recently remained almost unknown These lectures which focus on

the role of avowal or confession in the determination of truth and justice provide the missing link between Foucault's early work on madness, delinquency and sexuality and his later explorations of subjectivity in Greek and Roman antiquity. Ranging broadly from Homer to the twentieth century, Foucault traces the early use of truth telling in ancient Greece and follows it through to practices of self examination in monastic times. By the nineteenth century the avowal of wrongdoing was no longer sufficient to satisfy the call for justice; there remained the question of who the criminal was and what formative factors contributed to his wrong doing. The call for psychiatric expertise marked the birth of the discipline of psychiatry in the nineteenth and twentieth centuries as well as its widespread recognition as the foundation of criminology and modern criminal justice. Published here for the first time, the 1981 lectures have been superbly translated by Stephen W. Sawyer and expertly edited and extensively annotated by Fabienne Brion and Bernard E. Harcourt. They are accompanied by two contemporaneous interviews with Foucault in which he elaborates on a number of the key themes. An essential companion to *Discipline and Punish*, *Wrong Doing: Truth Telling* will take its place as one of the most significant works of Foucault to appear in decades and will be necessary reading for all those interested in his thought.
