**The Next Phase in Heritage Language Studies: Methodological Considerations and Advancements** Fatih Bayram, Maki Kubota, Sergio Miguel Pereira Soares, 2024-03-27

Over the past three decades, studies investigating heritage speaker HS linguistic competencies have shown time and again that despite being L1 or 2L1 native speakers of their home language, HS outcomes display variation across a wide spectrum of differences as compared to each other, other types of bilinguals as well as their monolingual peers. Studies have traditionally used mostly behavioral methodologies rooted in adjacent established fields, e.g., L1 acquisition, adult L2 acquisition, offering in addition to documenting and describing HS performance important insights for linguistic theory and challenges related to home minority language maintenance, contact policy, and more. A birds-eye view makes it clear that the methodologies one uses to tap into HSs' linguistic knowledge areas, if not more, are important than the phenomena under investigation, especially in light of how their unique experiences with their heritage and other languages are present across a continuum.

**Expertise** Jessica Gerrard, Jessica Holloway, 2023-01-26

This book offers an important and timely critique of expertise, showing how it is a keyword shaped by social, historical, and political debates about what counts as knowledge and truth and who counts as experts. Using teacher expertise as an illustrative case, Jessica Gerrard and Jessica Holloway reflect on recent events, including COVID-19 and the climate crisis, to examine how expertise is never neutral, objective, or fixed. They argue that getting political is not just an inevitable part of teacher expertise but a necessary basis of any claim to it. Across the chapters, *Expertise* explores how expertise is socially constructed in relation to governance, uses of data and evidence, understandings of ignorance and the unknown, and ultimately power. Using contemporary and historical examples from international contexts, the authors address the political positioning of expertise and how this creates boundaries between who is an expert and who is not, and what is and is not expertise. Gerrard and Holloway argue that ongoing policy debates about teacher expertise cannot be resolved by neutral definitions of good teaching. Rather, expertise is unavoidably political in its expression.
