Transfer Pricing and Financial Transactions Michael Lang, Raffaele Petruzzi, 2022-03-16 Transfer pricing and financial transactions Issues and developments Since years issues related to transfer pricing and intra group financing are prominent in the agendas of both taxpayers and governments The extreme relevance of these topics and the need to address them has attracted the interest of various international organizations for a long time Already in 1972 the OECD emphasized that these topics required further attention and the 1979 OECD Transfer Pricing Report dedicated an entire chapter to issues concerning loans However the first OECD Transfer Pricing Guidelines issued in 1995 did not include a chapter on these issues Twenty five years later in February 2020 the OECD finally released its 2022 Transfer Pricing Guidelines on Financial Transactions that became Chapter X of the OECD Transfer Pricing Guidelines Meanwhile in 2021 the United Nations included these topics in Chapter 9 of its Practical Manual for Developing Countries With those welcomed recent developments from the OECD and the UN the topic is now being extensively discussed especially considering the necessary implementation of the guidance at the national level and the future answers from the tax courts at national and European levels when dealing with this matter This publication discusses

the most important issues and recent developments related to this topic Beginning with an in depth analysis on the accurate delineation of financial transactions it further deals with the specific transactions concerning loans financial guarantees and cash pooling This book is based on the outcomes of the presentations and discussions held during the WU Transfer Pricing Symposium held in October 2021 at the WU Vienna University of Economics and Business The authors apart from providing a theoretical background to the discussed issues also present case studies that show how those issues can be approached in practice *Petroleum Magazine* R.
