Development, Education and Learning in Sri Lanka Angela W. Little, 2024-06-13 Sri Lanka's early achievements in education and literacy became well known among the international development community in the middle of the last century and were often used to benchmark progress elsewhere. *Development Education and Learning in Sri Lanka* presents an illuminating narrative of changing education fortunes and inequalities based on half a century of research. This research journey was undertaken in collaboration with Sri Lankan researchers island wide in myriad communities schools classrooms and education offices through conversations with countless parents teachers students community members trade union officers politicians and members of local national and international development agencies as well as through extensive documentary analysis. The book delineates the distinctive and changing features of the Sri Lankan education system through comparisons with systems elsewhere through an understanding of national political economic and social conditions crises and upheavals through changes in education policy and through shifting patterns of opportunity among diverse social groups. These analyses are framed by themes in the international development discourse ranging from modernisation to basic needs to globalisation and sustainable development some of which themes have been influenced by the Sri Lankan story. The book's overriding messages are the need to understand education and development in a country's own terms and to place learning at the heart of education policy situating it within broader conceptions of the purpose values and means of development.

Praise for *Development Education and Learning in Sri Lanka* Through rigorous and comprehensive research and a blend of local and global perspectives this book offers invaluable insights for academics and policymakers alike. Tara de Mel Director Bandaranaike Academy for Leadership and Public Policy and former Secretary Sri Lanka Ministry of Education. Reflecting on a career long engagement with education and development Angela Little brilliantly co-locates the personal political and the theoretical. A privilege to read. Simon McGrath University of Glasgow. This passionate engagement with education reform and development offers very instructive lessons for academics and policymakers in Sri Lanka and beyond. Siri T Hettige University of Colombo. Fifty years of personal experience in Sri Lanka from many vantage points. A focus on education and society rather than education alone. And a concern to understand rather than prescribe. This book has no competitors. Mick Moore Institute of Development Studies Sussex.

Ethnic Groups in Conflict, Updated Edition With a New Preface Donald L. Horowitz, 2001-04-09 Drawing material from dozens of divided societies Donald L Horowitz constructs his theory of ethnic conflict relating ethnic affiliations to kinship and intergroup relations to the fear of domination. A groundbreaking work when it was published in 1985 the book remains an original and powerfully argued comparative analysis of one of the most important forces in the contemporary world.
