This book presents international perspectives on migration and youth and analyses what kinds of effects such demographic changes are having on educational systems around the world. The chapters in this volume provide a fascinating insight into how countries around the world are dealing with loss or growth in their young population as well as changes to their education systems. Written by specialist academics from the relevant country, the book covers Cuba, Lithuania, the United Kingdom, the United States, Finland, Greece, Germany, Austria, Hungary, Latvia, China, Australia, India, Italy, and Poland. Taking into consideration the countries' social and political context, the chapters discuss educational issues surrounding curriculum assessment and the opportunities available for the support of young people. Conclusions are drawn about what could be done in the future for the benefit of both the migrant and the existing populations. The Shifting Global World of Youth and Education will be of great interest to academics, researchers, and postgraduate students in the disciplines of education, sociology, political sciences, and social work. Department of Education, 2013 *Visual Thinking* Temple Grandin, Ph.D., 2022-10-11 **INSTANT NEW YORK TIMES BESTSELLER WINNER OF THE NAUTILUS GOLD AWARD** A powerful and provocative testament to the diverse coalition of minds we'll need to face the mounting challenges of the twenty-first century. Steve Silberman: An absolute eye opener. Frans de Waal: A landmark book that reveals, celebrates, and advocates for the special minds and contributions of visual thinkers. A quarter of a century after her memoir *Thinking in Pictures*, forever changed how the world understood autism. Temple Grandin, an anthropologist on Mars as Oliver Sacks dubbed her, transforms our awareness of the different ways our brains are wired. Do you have a keen sense of direction, a love of puzzles, the ability to assemble furniture without crying? You are likely a visual thinker. With her genius for demystifying science, Grandin draws on cutting-edge research to take us inside visual thinking. Visual thinkers constitute a far greater proportion of the population than previously believed, she reveals, and a more varied one from the photo-realistic object visualizers like Grandin herself, with their intuitive knack for design and problem-solving to the abstract, mathematically inclined visual-spatial thinkers who excel in pattern recognition and systemic thinking. She also makes us understand how a world increasingly geared to the verbal tends to sideline visual thinkers, screening them out at school and passing over them in the workplace. Rather than continuing to waste their singular gifts, driving a collective loss in productivity and innovation, Grandin proposes new

approaches to educating parenting employing and collaborating with visual thinkers In a highly competitive world this important book helps us see we need every mind on board *Our Kids* Robert D. Putnam, 2016-03-29 The bestselling author of *Bowling Alone* offers an examination of the American Dream in crisis how and why opportunities for upward mobility are diminishing jeopardizing the prospects of an ever larger segment of Americans **The Manhattan Family Guide to Private Schools and Selected Public Schools, Seventh Edition** Victoria Goldman, 2016-01-08 This is the best and most comprehensive guide to Manhattan's private schools including Brooklyn and Riverdale Written by a parent who is also an expert on school admissions this guide has been helping New York City parents choose the best private and selective public schools for their children for over 20 years The new edition has been completely revised and expanded to include the latest information on admissions procedures programs diversity school size staff tuition and scholarships It now lists over 75 elementary and high schools including schools for special needs children Book Features Factors to consider when selecting a school such as location single sex versus coed school size after school programs and academic pace Preparing your child for admissions interviews Resources for test preparation School profiles that include key information on school tours and applications tuition financial aid and scholarships staff class size homework diversity educational approach atmosphere and more The information is on the mark and insightful Parents will pass *The Manhattan Family Guide* to parents as gleefully as they once passed notes in class *New York Magazine* for a previous edition *Approaches to Inclusive English Classrooms* Kate Mastruserio Reynolds, 2015-03-02 This book provides educators with an accessible guide to best practices concerning content based instruction CBI models and their use in English learner inclusive classrooms The author effectively bridges the gap between theory and practice with a critical analysis of practical examples and diverse strategies for the inclusion of English learners into K 12 general education courses The book also raises controversial questions regarding who is qualified to teach English learners and who is responsible for doing so looking at the difficulties faced by both general educators and ESL teachers in *Inclusive Classrooms* By providing a lens through which both ESL teachers and general educators are able to analyze compare and contrast a range of widely employed CBI methods this book allows teachers to make informed decisions in their EL program development and work with English learners in K 12 schools *Reinventing America's Schools* David Osborne, 2017-09-05 From David Osborne the author of *Reinventing Government* a biting analysis of the failure of America's public schools and a comprehensive plan for revitalizing American education In *Reinventing America's Schools* David Osborne one of the world's foremost experts on public sector reform offers a comprehensive analysis of the charter school movements and presents a theory that will do for American schools what his *New York Times* bestseller *Reinventing Government* did for public governance in 1992 In 2005 when Hurricane Katrina devastated New Orleans the city got an unexpected opportunity to recreate their school system from scratch The state's Recovery School District RSD created to turn around failing schools gradually transformed all of its New Orleans schools into charter schools and the results are

shaking the very foundations of American education Test scores school performance scores graduation and dropout rates ACT scores college going rates and independent studies all tell the same story the city s RSD schools have tripled their effectiveness in eight years Now other cities are following suit with state governments reinventing failing schools in Newark Camden Memphis Denver Indianapolis Cleveland and Oakland In this book Osborne uses compelling stories from cities like New Orleans and lays out the history and possible future of public education Ultimately he uses his extensive research to argue that in today s world we should treat every public school like a charter school and grant them autonomy accountability diversity of school designs and parental choice
