The Burden of Busing Richard A. Pride, 2002-11 What effect have twenty five years of school desegregation had on Nashville Richard A. Pride and J. David Woodard evaluate the city's efforts at integration and systematically examine the crucial issues involved They argue that the controversy has little to do with costs bus routes or achievement test scores Instead they claim it strikes at fundamental cultural issues Nashville's white citizens the authors observe resisted busing from the beginning After nine years experience blacks had become equally hostile to the notion arguing that they and they alone bore the burden Their schools had been closed their offspring had had to travel farther for instruction and their institutions and culture had been disrupted Blacks rejected assimilation demanding schools in their neighborhoods in which their children would predominate and would be supervised and taught by people of their own race A federal judge heard the case He agreed that the costs of the experiment had outweighed the benefits In 1980 in the first such decision made in the nation he ordered an end to busing His opinion explained his concern that busing was creating two school systems one private white and middle class one public black and poor The legal impact of the case was blunted when on appeal the Sixth

Circuit Court ordered busing be re established in Nashville
