

QUESTION 10

The three test tubes, X, Y and Z below, contain colourless solutions. The solutions in each test tube can either be potassium iodide or sodium carbonate or magnesium sulphate. Tests are carried out to determine which test tube contains which salts.

The following tests were carried out and the observations were made:

- Barium chloride solution is added to solution X; the solution remains colourless.
- Barium chloride solution is added to Y and Z; a white precipitate is formed in both cases.
- Dilute nitric acid is added to the precipitate in solution Y; the precipitate dissolves.

(2)

10.1 Define the term *dissociation*.

10.2 Give a reason why barium chloride solution can be used as electrolyte.

(2)

10.3 Write down the name of the precipitate in test tube Z.

(1)

Use the above information to identify the solutions in each of the test tubes X, Y and Z.

10.4 Write down the LETTER that represents the test tube and next to it, the NAME of the solution and the reason for the choice.

(6)

10.5 What type of reaction takes place between the precipitate in Y and the nitric acid?

Grade Physical Science Exemplar For 2014:

Routledge Handbook of Primary Physical Education Gerald Griggs, Kirsten Petrie, 2017-11-27 The Routledge Handbook of Primary Physical Education goes further than any other book in exploring the specific theoretical and practical components of teaching PE at the primary or elementary school level. As the most comprehensive review of theory, research, and practice in primary PE yet published, it represents an essential evidence-based guide for all students, researchers, and practitioners working in this area. Written by a team of leading international primary PE specialists from academic and practitioner backgrounds, this handbook examines the three discourses that dominate contemporary PE: health education and sport. With case studies from twelve countries including the UK, USA, Canada, Australia, New Zealand, Norway, Spain, and South Korea, it provides a truly international perspective on key themes and issues such as primary PE pedagogy, policy, and curriculum development, assessment, and standards, child development, diversity, and inclusion, teacher training, and professional development. Offering an unprecedented wealth of material, this handbook is an invaluable reference for any undergraduate or postgraduate degree programme in primary physical education or any primary teacher training course with a physical education element.

Recalibrating teacher training in African higher education institutions Sifiso Sibanda, Gideon (Deon) P. van Tonder, Washington T. Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post-pandemic education. This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices, where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research-intensive institutions of higher learning. This has far-reaching implications for the education of underprivileged citizens, and education, particularly modes and modalities of delivery, has to be reimagined to subvert the challenges wrought by the pandemic. This book significantly bridges the gap between the pre and post-COVID-19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time. The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark.
