Progressive Reading Education in America Patrick Shannon,2017-06-14 Through firsthand accounts of classroom practices this new book ties 130 years of progressive education to social justice work Based on their commitments to the principle of the equal moral worth of all people progressive teachers have challenged the obstacles of schooling that prevent some people from participating as full partners in social life in and out of the classroom and have constructed classroom and social arrangements that enable all to participate as peers in the decisions that influence their lives Progressive reading education has been and remains key to these ties commitments challenges and constructions The three goals in this book are to show that there are viable and worthy alternatives to the current version of doing school to provide evidence of how progressive teachers have accommodated expanding notions of social justice across time taking up issues of economic distribution of resources during the first half of the 20th century adding the cultural recognition of the civil rights of more groups during the second half and now grappling with political representation of groups and individuals as national boundaries become porous and to build coalitions around social justice work among advocates of differing but complementary theories and practices of literacy work In progressive classrooms from Harlem to Los Angeles and Milwaukee to Fairhope Alabama students have used reading in order to make sense of and sense in changing times working across economic cultural and political dimensions of social justice Over 100 teacher stories invite readers to join the struggle to continue the pursuit of a just democracy in America

Issues, 2014. **Atlas of Material Worlds** Matthew Seibert, 2021-08-17. Atlas of Material Worlds is a highly designed narrative atlas illustrating the agency of nonliving materials with unique ubiquitous and often hidden influence on our daily lives. Employing new materialism as a jumping off point, it examines the increasingly blurry lines between the organic and inorganic, engaging the following questions: What roles do nonliving materials play? Might a closer examination of those roles reveal an undeniable agency we have long overlooked or disregarded? If so, does this material agency change our understanding of the social structures, ecologies, economies, cosmologies, technologies, and landscapes that surround us? And perhaps most importantly, why does material agency matter? This is the story of the world's driest nonpolar desert, pink flamingos, and cerulean blue lithium ponds, industrial shipping logistics, pudding-like jiggling substrates, and monuments of mud, galactic bodies, radioactive sheep, and the yellowcake of uranium. Put simply, this book dares readers to see the world anew from material up. Atlas of Material Worlds offers this new relationship to our host environment in a time of mounting crises: accelerating climate change, ballooning socioeconomic inequality, and rising toxic nationalism. Uniquely telling materialist stories for practitioners and students in landscape architecture and other built environment disciplines.

Solidarity and the Palestinian Cause Zahi Zalloua, 2023-01-12. Zahi Zalloua provides the first examination of Palestinian identity from the perspective of Indigeneity and Critical Black Studies. Examining the Palestinian question through the lens of settler colonialism and Indigeneity, this timely book warns against the liberal approach to Palestinian Indigeneity, which reinforces cultural domination and urgently argues for the universal nature of the Palestinian struggle. Foregrounding Palestinian Indigeneity, it reframes the Palestinian-Israeli conflict as a problem of wrongful dispossession, a historical harm that continues to be inflicted on the population under the brutal Occupation of the West Bank and Gaza. At the same time, in a global context marked by liberal democratic ideology, such an approach leads either to liberal tolerance, the minority is permitted to exist so long as their culture can be contained within the majority order, or racial separatism that appeals for

national independence typically embodied in the two state solution Solidarity and the Palestinian Cause not only insists that any analysis of Indigeneity's purchase must keep this problem of translation in mind but also that we must recast the Palestinian struggle as a universal one As demonstrated by the Palestinian support for such movements as Black Lives Matter and the reciprocal support Palestinians receive from BLM activists the Palestinian cause fosters a solidarity of the excluded This solidarity underscores the interlocking global struggles for emancipation from racial domination and economic exploitation Drawing on key Palestinian voices including Edward Said and Larissa Sansour as well as a wide range of influential philosophers such as Slavoj Žižek Frantz Fanon and Achille Mbembe Zalloua brings together the Palestinian question Indigeneity and Critical Black Studies to develop a transformative anti racist vision of the world

Good News for Common Goods Wes Markofski, 2023 What is the relationship between evangelical Christianity and democracy in America In *Good News for Common Goods* sociologist Wes Markofski explores how multicultural evangelicals across the United States are addressing race poverty inequality politics and religious and cultural difference in America's increasingly plural and polarized public arena Based on extensive original research on multicultural evangelicals active in faith based community organizing community development political advocacy and public service organizations across the country including over 90 in depth interviews with racially diverse evangelical and non evangelical activists community leaders and neighborhood residents Markofski shows how the varieties of public religion practiced by evangelical Christians are not always bad news for non evangelicals people of color and those advancing ethical democracy in the United States Markofski argues that multicultural evangelicals can and do work with others across race class religious and political lines to achieve common good solutions to public problems and that they can do so without abandoning their own distinctive convictions and identities or demanding that others do so Just as ethical democracy calls for a more reflexive evangelicalism it also calls for a more reflexive secularism and progressivism
