Junkyards, Gearheads, and Rust David N. Lucsko, 2016-05-15 The material appeal of the automobile junkyard goes beyond the search for second hand parts What happens to automobiles after they are retired but before they are processed as scrap In this fascinating history David N Lucsko takes readers on a tour of salvage yards and wrecked or otherwise out of service cars in the United States from the point of view of gearheads the hot rodders restoration hobbyists street rodders and classic car devotees who reuse repurpose and restore junked cars Junkyards Gearheads and Rust is a nuanced exploration of the business of dismantling wrecks and selling second hand parts It examines the reinterpretation of these cars and parts by artists as well as their restoration by enthusiasts It also surveys the origin and evolution of gearhead oriented yards that specialize in specific types of automobiles dissects the material and emotional appeal of the salvage yard and its contents among enthusiasts and examines how zoning and nuisance ordinances have affected both salvage businesses and hobbyists Lucsko concludes with an analysis of efforts during the last twenty five years to hasten vehicular obsolescence at the expense of salvage yards mechanics and enthusiasts By examining how cars are salvaged repurposed and restored this book demonstrates that the history of the automobile is much more than a running catalog of showroom novelties

The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16

Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign
