Worlds Collide Frank Warburton, 2014-11-06 The world eagerly awaits the New Year celebrations to welcome in 2008 For Tom Warburton it is a time when the past catches up to him when he is asked to yet again help out his Country after a video is received by MI6 about a future terrorist plot The video is from the Infinity Islamic Group led by his nemesis Jamal Ashid Even though Tom does not feel obliged to get involved he cannot put aside the past and his intent to see justice done as far as Ashid is concerned It is the start of the final chase to hunt the man Tom holds responsible for past actions against him and his country but as he has found out in the past things do not always go according to plan This time around he finds those closest to him are placed in danger which he cannot protect them from The twists that Tom suddenly finds out about during his chase for Ashid creates its own problems of utter confusion Determined as ever to deal with the man one final time he heads off as the determined hunter **Defence Annual Report** Australia. service in Malaya served him well in Vietnam where he was a company commander of Bravo Company 6 RAR During Operation Bribie he lead his outnumbered company s desperate bayonet charge followed by close quarter fighting against a well dug in and determined enemy This action sharply illustrated the courage the battle discipline and the spirit of the well trained Australian combat infantryman On leaving the Army Ian excelled in the Australian and international business worlds A multi talented sportsman Rugby Union remained his passion in which he performed to international level Ian outlines the difference between leadership and management using many interesting and often humorous examples Both qualities are vital for successful senior operatives in both civilian and military organisations Most importantly as Ian explains a good leader must also be an effective decision maker and a good communicator This book is a tribute to Ian Mackay s qualities as a battlefield commander an international sportsman a successful businessman and an entertaining author

Architecture on the Borderline Anoma Pieris, 2019-06-25 Architecture on the Borderline interrogates space and territory in a turbulent present where nation state borders are porous to a few but impermeable to many It asks how these uneven and conflicted social realities are embodied in the physical and material conditions imagined produced or experienced through architecture and urbanism Drawing on historical global examples this rich collection of essays illustrates how empires nations and cities expand their frontiers and contest boundaries but equally how borderline identities of people and places influence or expose these processes Empirical chapters covering Central Asia the Asia Pacific region the American continent Europe and the Middle East offer multiple critical insights into the ways in which our spatial imagination is contingent on border thinking on the ways of being and navigating frontiers boundaries and margins the three themes used to organise their content The underlying premise of the book is that sensitisation to border conditions can alter our understanding of the static physical spaces that service political or cultural ideologies and that the view from the periphery opens up new ways of understanding sovereignty In exploring these various spaces and their transformative subjectivities this book also reveals the unrelenting precarity of contesting and living on the margins and related spaces and discourses that are neglected or suppressed
