 Classification of these 24 steps These 24 steps are classified into 3 different parts 1 Customer understanding the first few
 chapters of this eBook revolve around customer understanding 2 Product solution service Once you understand the customer
 you will be able to figure out if your product solution or service is able to solve the burning problem of the customer 3
 Strategy When you have understood your customer and have launched the product it is the time for strategy You make some
 assumptions business plan and calculate the cost of business acquisition Remember customer are given a lot of focus because
 entrepreneurs get too passionate and assume that whatever they are doing is right So they have so much assumptions and
 hunch which is a strong internal voice that says whatever you are doing is right And suddenly when they go to the market
 they fail because they are not prepared as they don't understand the competition and market dynamics Later you spend a lot
 of money and face many failures You get successful after all this But you need to take care that you should watch these 24
 chapter around these 3 sections Ways to do a startup 1 Passion Some people are passionate and they believe that they can
 build a company of Rs 500 crore 2 Technology Some people can make a technology that becomes intellectual property They
 also believe that even if they are unable to form a big organization they can sell the technology to someone 3 Idea Some
 people have a very strong idea and they can create a big company by hiring the people of technology and marketing You
 should start a startup when your idea and strategy is strong and you also have the knowledge of technology Steps to move
 from passion to idea and technology 1 Knowledge Deep knowledge of a subject 2 Capability 3 Network the people you know
 and are going to support you when you start a startup 4 Financial assets As it is said that 95% of the startups fail in the 3
 years of execution it happens because of the lack of finances 5 Established brand You need to check whether you already
 have an established brand or you have something on which you can build something The brand can also be of your co founder
 or you can partner with someone who has a big brand In such a case you have an added advantage 6 Past work experience 7
 Commitment you need to check how much you are committed towards your idea or technology 8 Find a founding team
 Startup is not a lonely journey and therefore you will have to find a founding team There are many individuals who are
 founders on their own but they set up a very strong management team The future of India is in your hands so create it as this

Thompson,2021-03-04 This book tells the story of the turbulent decades when the book publishing industry collided with the great technological revolution of our time From the surge of ebooks to the self publishing explosion and the growing popularity of audiobooks Book Wars provides a comprehensive and fine grained account of technological disruption in one of our most important and successful creative industries Like other sectors publishing has been thrown into disarray by the digital revolution The foundation on which this industry had been based for 500 years the packaging and sale of words and images in the form of printed books was called into question by a technological revolution that enabled symbolic content to be stored manipulated and transmitted quickly and cheaply Publishers and retailers found themselves facing a proliferation of new players who were offering new products and services and challenging some of their most deeply held principles and beliefs The old industry was suddenly thrust into the limelight as bitter conflicts erupted between publishers and new entrants including powerful new tech giants who saw the world in very different ways The book wars had begun While ebooks were at the heart of many of these conflicts Thompson argues that the most fundamental consequences lie elsewhere The print on paper book has proven to be a remarkably resilient cultural form but the digital revolution has transformed the industry in other ways spawning new players which now wield unprecedented power and giving rise to an array of new publishing forms Most important of all it

has transformed the broader information and communication environment creating new challenges and new opportunities for publishers as they seek to redefine their role in the digital age This unrivalled account of the book publishing industry as it faces its greatest challenge since Gutenberg will be essential reading for anyone interested in books and their future
