## **Memo Geography Paper 2 June 2015:**

**The Drone Memos** Jameel Jaffer, 2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens Publishers Weekly starred review In the long response to 9 11 the US government initiated a deeply controversial policy of targeted killing the extrajudicial execution of suspected terrorists and militants typically via drones A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned In The Drone Memos civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of The Nation

**How's Life? 2015 Measuring Well-being** OECD, 2015-10-13 How's Life describes the essential ingredients that shape people's well being in OECD and partner countries It includes a wide variety of statistics capturing both material well being and quality of life This third edition includes a special focus on child well being

**Making Cities Work for All Data and Actions for Inclusive Growth** OECD, 2016-10-13 This report provides ground breaking internationally comparable data on economic growth inequalities and well being at the city level in OECD countries and a framework for action to help national and local governments reorient policies towards more inclusive growth in cities

**Drawing Futures** Bob Sheil, Frédéric Migayrou, Luke Pearson, Laura Allen, 2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture Despite numerous developments in technological manufacture and computational design that provide new grounds for designers the act of drawing still plays a central role as a vehicle for speculation There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation Drawing Futures will present a compendium of projects writings and interviews that critically reassess the act of drawing and where its future may lie Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments The book coincides with an international conference of the same name taking place at The Bartlett School of Architecture UCL in November 2016 Bringing together practitioners from many creative fields the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas

**The Drone Debate**

Avery Plaw, Matthew S. Fricker, Carlos Colon, 2015-12-24 *The Drone Debate* offers a thorough investigation of the where why how and when of the U S s use of UAVs Beginning with a historical overview of the use of drones in warfare it then addresses whether targeted killing operations are strategically wise whether they are permissible under international law and the related ethical issues It also looks at the political factors behind the use of drones including domestic and global attitudes toward their use and potential issues of proliferation and escalation Finally the use of drones by other countries such as Israel and China is examined Each chapter features a case study that highlights particular incidents and patterns of operation in specific regions including Yemen Somalia Pakistan and Libya and strike types signature strikes personality strikes etc

**Western Balkan Economies in Transition** Reiner Osbild, Will Bartlett, 2018-08-23 This book explores the economic and social development of the Western Balkan region a group of six countries that are potential candidates for EU membership It focuses on the key economic issues facing these countries including the challenge of promoting economic growth limiting public deficits and debt and fostering international trade relations Given the severe impact of the recent economic crisis on social welfare in the region it also investigates the nature and extent of social exclusion a factor likely to produce future political instabilities if not effectively addressed by a return to sustainable economic growth The contributions explore these issues in light of the major influence of EU policy instruments and advice which are currently guiding the economies along an accession trajectory to future EU membership

**Muslim Fashion** Reina Lewis, 2015-10-15 In the shops of London s Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity *Muslim Fashion* contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity

*Urban Politics* Myron A. Levine, Heywood T. Sanders, 2025-03-31 *Urban Politics* brings together the classic and contemporary literature on urban politics and history with today s pressing urban issues This book s central theme is power going beyond the formal institutions and structures of city and suburban government to explain who defines the urban agenda and who benefits from local services and investments This book also presents a number of subthemes including the impact of globalization the dominant place of economic development concerns in the urban agenda and the continuing importance of race and poverty in big city and suburban politics It also places cities in the larger context of state and federal government politics and policies

and discusses the impact of those policies Urban Politics seeks to engage students with photographs real world case studies and boxed material that employs films video television shows and popular music to illustrate how urban politics works Urban Politics has been updated and revised to reflect the complex circumstances of both urban success stories and the difficult realities of cities left behind and to add new material on concentrated poverty climate change and the impacts of the COVID 19 pandemic The 11th edition of Urban Politics is an ideal introductory text for students of urban suburban and regional politics and policy This book s coverage of contemporary issues urban bureaucracy policy analysis and intergovernmental relations also makes it an effective textbook for classes in urban administration and planning Support material for this book can be found at [www.routledge.com/9781032270654](http://www.routledge.com/9781032270654) Politics and Pan-Africanism Dawn Nagar,2019-12-12 Offering an examination of the diplomatic and economic regional power structures in Africa and their relationships with each other Dawn Nagar discusses the potential and future of pan Africanism The three primary regional economic communities RECs that are recognised by the African Union as the key building blocks of a united Africa are examined these are the Common Market for Eastern and Southern Africa COMESA the East African Community EAC and the Southern African Development Community SADC These RECS include Africa s major economies Egypt South Africa and Kenya but are also home to Africa s most conflict prone and volatile states the Democratic Republic of the Congo DRC Burundi South Sudan Somalia and Lesotho Providing a detailed overview of the current relationship between these power blocs this book provides insight into the current state of diplomatic and economic relations within Africa and shows how far there is to go for a future of Pan Africanism   :   OECD,2018-02-24 OECD 50 200 15 60% **The Rise and Rise of Illegal Ticket Touting** Alessandro Moretti,2023-02-10 This book presents an ethnographic study of contemporary ticket touts in the UK Despite the recent interest in the topic of black market ticket sales media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice The Rise and Rise of Illegal Ticket Touting sheds light on the world of touting and delivers an authentic picture of the individuals involved of their methods values and motivations for performing ticket touting as an organised entrepreneurial deviant activity The touts varied methods of buying and selling tickets the hierarchical structures and strict ethos of their criminal organisations and their specific modi operandi for evading detection and arrest both on the streets and online are focal points of the study Of equal importance are the touts attitudes perceptions and adaptations to or outright dismissal of society s legal and moral frameworks This book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful focusing on inadequate legislation a lack of enforcement and the widespread corruption and exploitable loopholes that exist within the official primary ticket market An accessible and compelling read The Rise and Rise of Illegal Ticket Touting will appeal to students and scholars of criminology sociology social policy policing and all those with an interest in live music and sport and the hidden practices that lurk beneath the surface **Human**

*New Critical Spaces in Transitional Justice* Arnaud Kurze, Christopher K. Lamont, 2019-01-10 Since the 1980s transitional justice mechanisms have been increasingly applied to account for mass atrocities and grave human rights violations throughout the world Over time post conflict justice practices have expanded across continents and state borders and have fueled the creation of new ideas that go beyond traditional notions of amnesty retribution and reconciliation Gathering work from contributors in international law political science sociology and history *New Critical Spaces in Transitional Justice* addresses issues of space and time in transitional justice studies It explains new trends in responses to post conflict and post authoritarian nations and offers original empirical research to help define the field for the future

*The Urban Political* Theresa Enright, Ugo Rossi, 2017-11-01 This book examines the political and economic trajectories of cities following the 2008 financial crisis The authors claim that in this era which they dub late neoliberalism urban spaces institutions subjectivities and organizational forms are undergoing processes of radical transformation and recomposition The volume deftly argues that the urban political horizon of late neoliberalism is ambivalent marked by many progressive mobilizations for equality and justice but also by regressive forces of austerity exploitation and domination

Tourism and Geopolitics Derek R Hall, 2017-01-25 With 29 contributors from across Europe and beyond this work represents a unique and important resource that examines the many relationships between tourism and geopolitics with a focus on experiences drawn from Central and Eastern Europe It begins by assessing the changing nature of geopolitics from pejorative associations with Nazism to the more recent critical and feminist geopolitics of social science's cultural turn The book then addresses the important historical role of Central and Eastern Europe CEE in geopolitical thinking before exemplifying a range of contemporary interactions between tourism and geopolitics within this critical region Pursuing innovative analytical paths the book demonstrates the interrelated nature of tourism and geopolitics and emphasizes the freshness of this research area Addressing key principles and ideas which are applicable globally it is an essential source for researchers teachers and students of tourism geography political science and European studies as well as for diplomatic business and consultant

practitioners      **Russia's Arctic Strategies and the Future of the Far North** Marlene Laruelle, 2015-01-28 This book offers the first comprehensive examination of Russia's Arctic strategy ranging from climate change issues and territorial disputes to energy policy and domestic challenges. As the receding polar ice increases the accessibility of the Arctic region, rival powers have been manoeuvring for geopolitical and resource security. Geographically, Russia controls half of the Arctic coastline, 40 percent of the land area beyond the Circumpolar North, and three quarters of the Arctic population. In total, the sea and land surface area of the Russian Arctic is about 6 million square kilometres. Economically, as much as 20 percent of Russia's GDP and its total exports is generated north of the Arctic Circle. In terms of resources, about 95 percent of its gas, 75 percent of its oil, 96 percent of its platinum, 90 percent of its nickel and cobalt, and 60 percent of its copper reserves are found in Arctic and Sub-Arctic regions. Add to this the riches of the continental shelf seabed and waters ranging from rare earth minerals to fish stocks. After a spike of aggressive rhetoric when Russia planted its flag in the Arctic seabed in 2007, Moscow has attempted to strengthen its position as a key factor in developing an international consensus concerning a region where its relative advantages are manifest despite its diminishing military technological and human capacities.      **Concrete Revolution** Christopher Sneddon, 2015-09-25 Concrete Revolution offers a compelling historical account of the U.S. Bureau of Reclamation's contributions to dam technology, Cold War politics, and the social and environmental adversity perpetuated by the U.S. government in its pursuit of capitalist economic development. Founded in 1902, the Bureau amassed geopolitical power after the Second World War in response to the Soviet Union's increasing global influence. By offering technical and water resource management advice to the world's underdeveloped regions, the Bureau found that it could not only provide them with economic assistance and provide the U.S. with investment opportunities but also gain alliances for the U.S. and further the country's global standing in the face of a burgeoning communist regime. The book includes a number of case studies from the Bureau's foray into overseas development and the launch of its Foreign Activities Office in 1950 to specific projects such as the Litani River initiative in Lebanon, the Blue Nile investigation in Ethiopia, and the Mekong river basin development project in mainland Southeast Asia, the bureau's longest international undertaking which affected Thailand, Laos, Cambodia, and Vietnam. If Sneddon argues we can come to understand dams as both technical and political objects rather than mere instruments of impartial science, we can better participate in current debates about large dams and river basin planning.      **Innovation and Modernisation in Contemporary Russia** Imogen Sophie Kristin Wade, 2022-07-29 This book examines how technological modernisation and innovation policies have been implemented in Russia from the Soviet era to the present day. It discusses how, since about 2000, the Russian state has attempted to address the country's excessive dependence on natural resources by implementing an ambitious programme of economic modernisation, including giving innovation more policy prominence, boosting state funding for research and development, and innovation, and emphasising science towns and technology parks as key instruments for stimulating innovation. Based on extensive original research,

taking a multidisciplinary approach and including detailed case studies the book explains why despite these efforts Russia is performing comparatively poorly in innovation outcomes It argues that a key factor is the country s political economy model in which science technology and innovation policies are mainly controlled and funded by the federal centre of power and led by domestic political and economic elites

**Asymmetric Crisis in Europe and Possible Futures** Johannes

Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics
