**Positive Tourism in Africa** Mucha Mkono, 2019-03-20 Positive Tourism in Africa provides a crucial counter narrative to the prevailing colonial and reductionist perspective on Africa's tourism trajectory and future. It offers a uniquely optimistic outlook for tourism in Africa whilst acknowledging the many challenges that African countries continue to grapple with. By examining broad and localized empirical studies, conceptual frameworks, culturally centered paradigms, and innovative methodological approaches for African contexts, this book showcases the many facets of tourism in Africa that illustrate hope, resilience, growth, and survival. This volume explores themes such as community-based tourism, wildlife tourism, tourism governance and leadership, crisis recovery, regional integration, the role of indigenous knowledge, event tourism, and the impact of smart technologies. It acknowledges the challenges and opportunities for growth that exist in these various contexts and explores how tourism creates value for the spectrum of its participants. Including a wide selection of contributions from diverse authors, many of them African, this book offers an Afro-centric interpretation of tourism phenomena. It will be of great interest to students, researchers, and academics in the field of Tourism and African Studies, as well as Development Studies and Geography.

**Tourism Planning** Edward Inskeep, 1991 This book provides the reader with guidelines and approaches in the development of tourism that respond to community desires and needs. Planning techniques applicable to both developed and underdeveloped countries address tourist attractions, urban tourism, large resorts, and limited special interest tourism.

*Tourism Planning and Development in the Middle East* Stella Kladou, Konstantinos Andriotis, Anna Farmaki, Dimitrios Styliadis, 2022-12-16 Given the historical and cultural richness of countries in the Middle East region, as well as the economic development many have exhibited in recent years, tourism planning and development gains much significance for both scholars and practitioners. Turbulence, conflicts, and crises exhibited in the area add further dimensions that need to be incorporated in tourism strategies and planning and be taken into consideration by experts at an institutional, corporate, and educational level. Furthermore, in order to effectively deal with aspects of sustainability, visions and strategies in the region need to build upon good practices. As a result, a greater understanding is required of the factors influencing decision making on tourism matters, as well as on the impacts and implications of sustainable tourism development. This book is an essential resource for tourism practitioners, decision makers in private and public organisations, government bodies, and consultants, not only from the Middle East but for all those who want an encompassing view of global tourism.
