Positive Tourism in Africa Mucha Mkono, 2019-03-20 Positive Tourism in Africa provides a crucial counter narrative to the prevailing colonial and reductionist perspective on Africa s tourism trajectory and future It offers a uniquely optimistic outlook for tourism in Africa whilst acknowledging the many challenges that African countries continue to grapple with By examining broad and localized empirical studies conceptual frameworks culturally centered paradigms and innovative methodological approaches for African contexts this book showcases the many facets of tourism in Africa that illustrate hope resilience growth and survival This volume explores themes such as community based tourism wildlife tourism tourism governance and leadership crisis recovery regional integration the role of indigenous knowledge event tourism and the impact of smart technologies It acknowledges the challenges and opportunities for growth that exist in these various contexts and explores how tourism creates value for the spectrum of its participants Including a wide selection of contributions from diverse authors many of them African this book offers an Afro centric interpretation of tourism phenomena It will be of great interest to students researchers and academics in the field of Tourism and African Studies as well as Development Studies and Geography

Thanatourism and Cinematic Representations of Risk Rodanthi Tzanelli, 2016-04-14 In today s world the need to eliminate natural and human made disasters has been at the forefront of national and international socio political agendas The management of risks such as terrorism labour strikes protests and environmental degradation has become pivotal for countries that depend on their economy s tourist sector Indeed there is fear that the end of tourism might be nigh due to inadequate institutional foresight Yet in designing relevant policies to tackle this arts such as that of filmmaking have yet to receive due consideration This book adopts an unorthodox approach to

debates about the end of tourism Through twenty first century cinematic narratives of symbolically interconnected risks it considers how art envisages the future of humanity s well being These risks include migration as an infectious disease alien incursions as racialized labour mobilities cyborg rebellion as the fear of post colonial otherness and zombie anthropophagy as the replacement of rooted identities by nomadic lifestyles Such filmic scenarios articulate the futuristic survival of community as the triumph of the technological human over otherness and provide a means to debate societal risks that weave identity politics into unequal mobilities This book will appeal to researchers and students interested in mobilities theory tourism and travel theory film studies and aesthetics globalisation studies race labour and migration Strategic Environmental

Assessment and Urban Planning Giovanni Campeol,2020-07-06 This volume gathers a selection of research contributions on Strategic Environmental Assessment SEA including theoretical and methodological studies and real world case studies It sheds new light on the respective steps in the procedure defined in the SEA Directive from theoretical and operational standpoints intended to enhance the sustainability of plans and programmes adopted by local regional and national authorities Improving the legitimacy and transparency of decision making in the field of environmental management was one of the goals that led the European Commission EU to adopt Directive 2001 42 EC on the assessment of environmental programmes effects This book provides a multidisciplinary approach to SEA and addresses the demand for policies and strategies to strengthen resilience through concrete measures to reduce energy consumption mitigate pollution promote social inclusion and create urban identity **Yearbook of International Organizations 2014-2015 (Volume 3)** Union Of

International Associations,Union of International Associations,2014-08-20 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and acitvities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Volume 3 allows readers to locate organizations by subjects or by fields of activity and specialization and includes an index to Volumes 1 through 3 **Performing Flight** Scott

Magelssen,2020-01-01 Performing Flight sheds new light on moments in the history of US aviation and spaceflight through the lens of performance studies From pioneering aviator Bessie Coleman to the emerging industry of space tourism performance has consistently shaped public perception of the enterprise of flight and has guaranteed its success as a mode of entertainment travel research and warfare The book reveals fundamental connections between performance and human aviation and space travel over the past 100 years beginning with the early aerial entertainers known as barnstormers named after itinerant 19th century theater troupes to the performative history of the Enola Gay and its pilot Paul Tibbets who dropped the bomb on Hiroshima thus ushering in the atomic age The book also explores the phenomenon of the pilot voice

the creation of the American Astronaut on whose performative success the Cold War the Space Race and funding of the US Space Program all depended and the performative strategies employed to cement notions of space tourism as both manifest destiny and an escape route from a failed planet A final chapter addresses the four hijacked flights of 9 11 and their representations in discourse and in memorials Performing Flight effectively and imaginatively demonstrates the ways in which performance and flight in the United States have been inextricably linked for more than a century *The Gateway to the Pacific* Meredith Oda,2019-01-03 In the decades following World War II municipal leaders and ordinary citizens embraced San Francisco's identity as the Gateway to the Pacific using it to reimagine and rebuild the city The city became a cosmopolitan center on account of its newfound celebration of its Japanese and other Asian American residents its economy linked with Asia and its favorable location for transpacific partnerships The most conspicuous testament to San Francisco's postwar transpacific connections is the Japanese Cultural and Trade Center in the city's redeveloped Japanese American enclave Focusing on the development of the Center Meredith Oda shows how this multilayered story was embedded within a larger story of the changing institutions and ideas that were shaping the city During these formative decades Oda argues San Francisco's relations with and ideas about Japan were being forged within the intimate local sites of civic and community life This shift took many forms including changes in city leadership new municipal institutions and especially transformations in the built environment Newly friendly relations between Japan and the United States also meant that Japanese Americans found fresh if highly constrained job and community prospects just as the city's African Americans struggled against rising barriers San Francisco's story is an inherently local one but it also a broader story of a city collectively if not cooperatively reimagining its place in a global economy *Just Past?* Raz Kletter,2014-12-05 The land of Israel is rich in history and material culture and has long been the location of extensive archaeological excavation Just Past examines the origins of Israeli archaeology in the 1950s and 1960s Drawing on previously unpublished documentary material the study offers a history of intriguing finds failures and dreams Just Past covers a range of topics from the 1948 war to the Israel Department of Antiquities and Museums issues of foreign aid and the political circumstances behind the decision to start excavations at Masada Highlighting the centrality of politics to archaeology in Israel Palestine Just Past presents an assessment of the origins of Israeli archaeology which will be invaluable to students and scholars of history and archaeology

Renewing Cities Ross J. Gittel,2014-07-14 The cities of Lowell and New Bedford in Massachusetts Jamestown in New York and McKeesport in Pennsylvania have all undergone years of adversity and decline their economic bases having been

badly damaged by structural changes in the national economy particularly in the manufacturing sector In situations like these can local development efforts make a difference Ross Gittel answers in the affirmative This interdisciplinary work focuses on comparative case studies of the four cities The book reveals how public private and community based local economic development initiatives affect local economic performance what works and what does not work City leaders and institutions can help reorganize and reshuffle local resources with results that include increased investment greater effort by local individuals and institutions more cooperation among different development interests and improvement in city economic positioning relative to the regional economy and local development cycles Gittel emphasizes the possibility of shifting from a zero sum game attracting jobs from elsewhere toward the goal of converting underutilized local resources to higher value uses through alternative forms of economic and political organization Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Whale-watching James Higham, Lars Bejder, Rob Williams, 2014-03-27 Within little more than a generation whale watching has been subject to global industrial development It has been portrayed by destinations and business operators and advocated by environmental groups as a sustainable activity and an alternative to whaling However in recent years the sustainability of these activities has

increasingly been questioned as research shows that repeated disturbance by boat traffic can severely disrupt critical behaviours of cetaceans in the wild Bringing together contributions by international experts this volume addresses complex issues associated with commercial whale watching sustainable development and conservation of the global marine environment It highlights widely expressed concerns for the failure of policy planning and management and pinpoints both long standing and emerging barriers to sustainable practice Featuring numerous case studies the book provides critical insights into the diverse socio cultural political economic and ecological contexts of this global industry highlighting the challenges and opportunities that arise along the pathways to sustainability *Franco Sells Spain to America* N.

Rosendorf,2014-02-18 A groundbreaking study of the Franco regime s utilization of Hollywood film production in Spain American tourism and sophisticated public relations programs including the most popular national pavilion at the 1964 65 New York World s Fair in a determined effort to remake the Spanish dictatorship s post World War II reputation in the US
