multiplicity of new actors in these domains Shifting the focus away from traditional spies and Anglo American intelligence services this book addresses the transformations of contemporary intelligence through empirically detailed and theoretically innovative analyses making a key contribution to existing scholarship This book will be of much interest to students of intelligence studies critical security studies foreign policy and International Relations *Neoliberalism, State-Corporate Power and Regulatory Failure* Rhiannon Bandiera, 2025-05-23 Based on over a decade of research this book examines the social harms of Australian prescription and non prescription medicine regulation and how these ultimately stem from neoliberalism and its reinforcement of state and corporate power Neoliberalism shapes state and corporate power regulation and the harms resulting from regulatory failure yet the links between these themes are rarely discussed Drawing on the concept of hegemonic neoliberal governmentality this book critically examines Australian medicine regulation and the harms resulting from its failure in areas such as medicine quality safety and efficacy direct to consumer advertising and marketing directed at health professionals It traces these harms through the colonial foundations and evolution of medicine regulation in Australia exploring both regulatory failure and the attempts at reforming this regulatory system It argues that neoliberalism is not regulatable and reinforces and sustains itself empowering the state and corporations while disempowering the public and those representing its interests Thus reducing its harms is only achievable through broader transformative change rather than by reforming and thereby continuing to work within the existing neoliberal capitalist system *Neoliberalism State Corporate Power and Regulatory Failure* will be of value to practitioners members of the public and private sector and academics active in the fields of state corporate and state corporate crime social harm and regulation as well as to those new to the study of medicine related harms It will also be of interest to all those concerned about their health and the medicines they use **Sessional Papers** Great Britain.
