Making of Distinctions Antony Palackal, Nandita Chaudhary, Giuseppina Marsico, 2021-01-01 The volume revolves around the theme inclusive oppositions in social sciences that address the issue of making of distinctions and create artificial dichotomies and dualistic view of society It is set against the currents of systematic reduction of anthropodiversity and psychodiversity which appears as a pathology of the current neo liberalist and colonialist model of development The volume is an attempt to overcome the colonial tendencies and forces to standardize and homogenize various categories and institutions in society by establishing structural relationality and intersectionality between the parts of the whole ecosystem where in the human and non human intersect and interact The volume brings together a unique collaboration in the field of Cultural Psychology and offers the intellectual tools to grasp how a syncretic understanding of Identity and Culture unfolds particularly in the key domain of gender The chapters and commentaries uncover cultural dynamics and identity formation from a specific location the region of Kerala in south western India The chapters and commentaries in this volume illustrates that Kerala is a cultural micro cosmos in which gender identity religion ethnicity caste global market and tradition intersect to create complex and multiple subjects that do not fit in binary categorizations The compiled volume will be of great value to scholars researchers and academicians in Social

Hooking Up Kathleen A. Bogle,2008 A closer look into the new sexual culture on college campuses It happens every weekend In a haze of hormones and alcohol groups of male and female college students meet at a frat party a bar or hanging out in a dorm room and then hook up for an evening of sex first questions later As casually as the sexual encounter begins so it often ends with no strings attached after all it was just a hook up While a hook up might mean anything from kissing to oral sex to going all the way the lack of commitment is paramount Hooking Up is an intimate look at how and why college students get together what hooking up means to them and why it has replaced dating on college campuses In surprisingly frank interviews students reveal the circumstances that have led to the rise of the booty call and the death of dinner and a movie Whether it is an expression of postfeminist independence or a form of youthful rebellion hooking up has become the only game in town on many campuses In Hooking Up Kathleen A Bogle argues that college life itself promotes casual relationships among students on campus The book sheds light on everything from the differences in what young men and women want from a hook up to why freshmen girls are more likely to hook up than their upper class sisters and the effects this period has on the sexual and romantic relationships of both men and women after college Importantly she shows us that the standards for young men and women are not as different as they used to be as women talk about friends with benefits and one and done hook ups Breaking through many misconceptions about casual sex on college campuses Hooking Up is the first book to understand the new sexual culture on its own terms with vivid real life stories of young men and women as they navigate the newest sexual revolution
