**The Routledge Handbook of Hospitality Studies** Conrad Lashley, 2016-11-10 In recent years there has been a growing interest in the study of hospitality as a social phenomenon This interest has tended to arrive from two communities The first comprises hospitality academics interested in exploring the wider meanings of hospitality as a way of better understanding guest and host relations and its implications for commercial settings The second comprises social scientists using hosts and guests as a metaphor for understanding the relationship between host communities and guests as people from outside the community migrants asylum seekers and

illegal immigrants The Routledge Handbook of Hospitality Studies encourages both the study of hospitality as a human phenomenon and the study for hospitality as an industrial activity embracing the service of food drink and accommodation Developed from specifically commissioned original contributions from recognised authors in the field it is the most up to date and definitive resource on the subject The volume is divided into four parts the first looks at ways of seeing hospitality from an array of social science disciplines the second highlights the experiences of hospitality from different guest perspectives the third explores the need to be hospitable through various time periods and social structures and across the globe while the final section deals with the notions of sustainability and hospitality This handbook is interdisciplinary in coverage and is also international in scope through authorship and content The state of the art orientation of the book is achieved through a critical view of current debates and controversies in the field as well as future research issues and trends It is designed to be a benchmark for any future assessment of the field and its development This handbook offers the reader a comprehensive synthesis of this discipline conveying the latest thinking issues and research It will be an invaluable resource for all those with an interest in hospitality encouraging dialogue across disciplinary boundaries and areas of study Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**Conservation Drones** Serge A. Wich, Lian Pin Koh, 2018-05-31 Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up to date data on the distribution and density of species as well as the threats to their habitats in their ongoing attempts to conserve and monitor biodiversity Conservation drones are low cost autonomous and operator friendly unmanned aerial vehicles that can be used for surveying mapping and monitoring both habitat and biodiversity They are fast becoming a valuable complement to ground based surveys and satellite imagery for a wide range of ecological and conservation applications The authors pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia They subsequently founded ConservationDrones.org to share their knowledge of building and using drones with colleagues in the wider environmental community This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies for practical conservation
