This provides planners and designers of today's automobiles with concrete information for ergonomic product development enabling them to keep an eye on decisive requirements and subsequent customer acceptance. This book is a translation of the original German 1st edition *Automobilergonomie* by Heiner Bubb, Klaus Bengler, Rainer E. Grönen, Mark Vollrath, published by Springer Fachmedien Wiesbaden GmbH, part of Springer Nature, in 2015. The translation was done with the help of artificial intelligence machine translation by the service DeepL.com. A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.
