*Handbook of Cane Sugar Engineering* Emile Hugot, 1986 Hugot's *Handbook of Cane Sugar Engineering* needs little introduction it can be found in technical libraries in cane sugar producing countries all over the world Unique in the extent and thoroughness of its coverage the book has for many years provided the only complete description of cane sugar manufacture mills diffusers boilers and other factory machinery calculation methods of capacity for every piece of equipment and process and manufacturing techniques This new edition has been extensively revised Information that has become obsolete or of little interest has been deleted or severely shortened Detailed additions have been made to chapters dealing with recently developed equipment An entirely new chapter has been added on automation and data processing Numerous figures graphs drawings photographs tables and formulae are provided The metric system has been used throughout the book but because many factories still use the British units all measures formulae and tables and nearly all calculations have been given in both systems     *Handbook of Sugar Refining* Chung Chi Chou, 2000-08-14 This book provides a reference work on the design and operation of cane sugar manufacturing facilities It covers cane sugar decolorization filtration evaporation and crystallization centrifugation drying and packaging     *Handbook of Cane Sugar Engineering* E. Hugot, 2014-05-12 *Handbook of Cane Sugar Engineering* focuses on the technologies equipment methodologies and processes involved in cane sugar engineering The handbook first underscores the delivery unloading and handling of cane cane carrier and knives and tramp iron separators The text then examines crushers shredders combinations of cane preparators and feeding of mills and conveying bagasse The manuscript takes a look at roller grooving pressures in milling mill speeds and capacity and mill settings Topics include setting of feed and delivery openings and trash plate factors influencing capacity formula for capacity fiber loading tonnage records linear speed and speed of rotation sequence of speeds hydraulic pressure and types of roller grooving The book then elaborates on electric and turbine mill drives mill gearing construction of mills extraction milling control purification of juice filtration evaporation sugar boiling and centrifugal separation The handbook is a valuable source of data for engineers involved in sugar cane engineering     *Sugar*, 1914     **American Sugar Industry**, 1922     *Handbook of Package Engineering, Third Edition* Joseph F. Hanlon, Robert J. Kelsey, Hallie Forcinio, 1998-04-23 Now in its third edition the *Handbook of Package Engineering* is still considered the standard industry reference on packaging materials and engineering This text is a useful source of information for anyone involved in packaging Designed as a refresher on packaging fundamentals this complete guide also provides information on recent changes in the materials and structures of packaging It reviews the essentials of production packaging operations line layout and the machines that are required in order to perform basic packaging functions It introduces the increasing web of laws and regulations controlling virtually all packaged products     *26th European Symposium on Computer Aided Process Engineering*, 2016-06-17 *26th European Symposium on Computer Aided Process Engineering* contains the papers presented
