

Overview

Windows-powered unified storage built on industry standards

You have better things to do than worry about storage. You're juggling multiple management interfaces, security concerns, and shrinking backup windows -- all while your users demand more and more space. You need a shared storage solution that's powerful and easy to manage, and you need it now.

HP X1000 G2 Network Storage Systems are the fast and easy way to add Windows-powered shared storage to your IT environment. They're versatile unified storage, so you get more for your money since it can be a file server, an iSCSI target for application/virtual environment storage, or both. You'll spend less time and effort on maintenance and management once you consolidate to a centralized shared storage system, and industry standards will protect your investment by providing compatibility with your network and applications. The operating system is pre-installed and comes with HP X1000 Automated Storage Manager, so you'll be up and running in minutes.

What is an X1000 G2 Network Storage System?

HP X1000 G2 Network Storage Systems are enhanced Windows-powered shared storage solutions for your datacenter, branch office, or workgroup environment. They are built on industry-standard HP ProLiant servers and come with the Microsoft® Windows Storage Server 2008 R2 operating system pre-installed. Like many Network Attached Storage (NAS) devices, they connect via Ethernet, offer optimized file serving for heterogeneous clients, and are designed to install in minutes. They can also connect to servers or virtual machines to host application storage with the included iSCSI target. Since HP X1000 G2 Network Storage Systems are Windows-based, integration into your Windows environment is easy, your antivirus and backup applications run right on the box, and management has a familiar look and feel. So you can add shared storage to your network quickly and get back to what matters most: running your business.
