HSBC's Guide to Cash and Treasury Management in Asia Pacific 2008 - English, 2007 **Internet Security Fundamentals** Nick Ioannou, 2014-01-14 An easy to understand guide of the most commonly faced security threats any computer user is likely to come across via email social media and online shopping This is not aimed at people studying Internet Security or CISSP but general users though still helpful to both Antivirus software is now incredibly advanced but the problem of viruses is worse than ever This is because many viruses trick the user into installing them The same way that the most sophisticated alarm system and door security is not much use if you open the door from the inside to let someone in This book explains in easy to understand terms why you cannot just rely on antivirus but also need to be aware of the various scams and tricks used by criminals Journalism Online Mike Ward, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company Bank 3.0 Brett King, 2012-11-19 The first edition of BANK 2 0 1 on Amazon's bestseller list for banking and finance in the US UK Germany France and Japan for over 18 months took the financial world by storm and became synonymous with disruptive customer behaviour technology shift and new banking models In BANK 3 0 Brett King brings the story up to date with the latest trends redefining financial services and payments from the global scramble for dominance of the mobile wallet and the expectations created by tablet computing to the operationalising of the cloud the explosion of social media and the rise of the de banked consumer who doesn't need a bank at all BANK 3 0 shows that the gap between customers and financial services players is rapidly widening leaving massive opportunities for new non bank competitors to totally disrupt the industry On the Web and on Mobile the customer isn't king he's dictator Highly impatient skeptical cynical Brett King understands deeply what drives this new hard nosed customer Banking professionals would do well to heed his advice Gerry McGovern author of Killer Web Content *The Executive Guide to Artificial Intelligence* Andrew Burgess, 2017-11-15 This book takes a pragmatic and hype free approach to explaining artificial intelligence and how it can be utilised by businesses today At the core of the book is a framework developed by the author which describes in non technical language the eight core capabilities of Artificial Intelligence AI Each of these capabilities ranging from image recognition through natural language processing to prediction is explained using real life examples and how they can be applied in a business environment It will include interviews with executives who have successfully implemented AI as well as CEOs from AI vendors and consultancies AI is one of the most talked about technologies in business today It has the ability to deliver step change benefits to organisations and enables forward thinking CEOs to rethink their business models or create completely new businesses But most of the real value of AI is hidden behind marketing hyperbole confusing terminology inflated expectations and dire warnings of robot overlords Any business executive that wants to know how to exploit AI in their business today is left confused and frustrated As an advisor in Artificial Intelligence Andrew Burgess regularly comes face to face with business executives who are struggling to cut

through the hype that surrounds AI The knowledge and experience he has gained in advising them as well as working as a strategic advisor to AI vendors and consultancies has provided him with the skills to help business executives understand what AI is and how they can exploit its many benefits Through the distilled knowledge included in this book business leaders will be able to take full advantage of this most disruptive of technologies and create substantial competitive advantage for their companies
