A time-tested landmark approach to health promotion and communication projects and everything that goes into making them successful. For more than 40 years, the PRECEDE PROCEED model developed in the early 1970s by Lawrence W. Green and first published as a text in 1980 with Marshall W. Kreuter, Sigrid G. Deeds, and Kay B. Partridge has been effectively applied worldwide to address a broad range of health issues, risk factors like tobacco and lack of exercise, social determinants of health such as lack of access to transportation and safe housing, and major disease challenges like heart disease and guinea worm disease.
