Chanquoy, Pierre Largy, 2012-12-06 Revision Revisited LINDA ALLAL LUCILE CHANQUOY University of Geneva Switzerland University of Nantes France Revision is a fundamental component of the writing process So fundamental that for some specialists writing is largely a matter of revising or as Murray 1978 stated Writing is rewriting p 85 Experience with writing does not however automatically translate into increased skill in revision Learning to revise is a lengthy complex endeavor Beginning writers do little revision spontaneously and even experienced writers encounter difficulties in attempting to improve the quality of their texts Fitzgerald 1987 Although revision has been extensively dealt with in the writing and learning to write literature this book proposes to revisit theory and research in this area through a series of new contributions The introduction begins with an overview of what revision encompasses It then examines two parallel interrogations that under lie the chapters assembled here namely 1 What are the implications of research on cognitive processes for instruction in revision 2 What are the questions raised by instructional research for the investigation of cognitive processes of revision A final section presents the chapters of this book Writing: Step by Step Randy Devillez, 2003-05-30 What are your students goals *Writing Instruction and Intervention for Struggling Writers* Michael Dunn, 2019-11-18 Writing is a challenging task for many children To address this issue many educational researchers advocate for schools to implement a multi tiered systems of support MTSS model where struggling writers can be detected as early as kindergarten and provided with intervention programming to improve their skills and hopefully not need long term placement in special education Traditionally schools have employed the wait to fail model where children were offered the opportunity to learn to read write and do math in the first few years of elementary school if they still struggled at the end of third grade age eight then they would be assessed for special education The problem with this was not only a delayed

assessment timeline but also the standardized tests not having an adequate set of questions to assess early elementary grade skills as well as the ethical problems and racial ethnic biases of test questions MTSS provides educators with a renewed emphasis on early intervention and progress monitoring assessment once or twice a week to monitor each student s skills and make instructional changes to promote success This book offers a description and case examples of how schools and teachers can apply MTSS concepts for writing
