Introduction to Maternity Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy to follow organization by developmental stages, discussion of disorders by body system from simple to complex and health to illness and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear concise style by Gloria Leifer MA RN, this edition reflects the current NCLEX test plan with additional material on safety, health promotion, nutrition and related psychosocial care. It provides clinical information and insights in a concise, structured and informative way that encourages critical thinking. Reviewed by Kim Shrieves on behalf of Nursing Times April 2015. Concise yet comprehensive content is presented within the scope of practice for the LVN/LPN but with sufficient depth to facilitate students in a ladder program, allowing them to be successful with the ADN program requirements for the specialties. Step by step procedure lists throughout the text help you master important maternity and pediatric nursing processes with Skills Performance Checklists available on the Evolve website. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process and strengthen problem solving skills as applied to maternity nursing. Logical organization of content from simple to complex and health to illness makes locating and accessing information easy. Key terms with phonetic pronunciations and text page references help improve terminology and language skills of English as a Second Language/ESL students and students with limited proficiency in English before they enter clinical practice. Health Promotion boxes emphasize the importance of family centered care, health promotion and illness prevention, women's health issues and growth and development of child and parent to help you understand and teach wellness and disease prevention to patients in your care. Nutrition content highlights the importance of proper nutrition for women before, during and after pregnancy for those who are breastfeeding as well as critical information about the nutrition needs and problems of newborns, infants and children. Nursing Tips throughout provide pertinent information applicable in the clinical setting that reinforces what you have just learned while building on previously learned information. NEW! Unfolding case studies with illustrations follow first time parents Tess and Luis throughout the stages of pregnancy and birth of their twins with a series of critical thinking questions. NEW! Updated NCLEX exam style review questions have been revised to a higher cognitive level to better reflect the NCLEX examination. NEW! Expanded coverage of bioterrorism and natural disasters better reflects the evolving role of the nurse in disaster situations. NEW! Enhanced appendix includes Pediatric Lab Values for quick and easy reference.
