Houwers, 2012-12-06 Forty years ago when PLANT AND SOIL first appeared Europe was still recovering from the devastating effects of World War II During the war years work in many centres of agricultural research had come to a virtual standstill Buildings and equipment were destroyed scientists were often forced to terminate their research and teaching activities and funds allocated to such work were diverted to other at that time more pressing needs During the first post war years reconstruction was undertaken with great zeal and in that light the founding of the new

journal PLANT AND SOIL must be viewed In the pre war period most agricultural science journals were still primarily national ones and consequently many articles were published in languages mastered by only a limited number of potential readers In small countries whose languages are not widely understood the desire arose to publish research findings in one of the major languages It is therefore understandable that in the early years of the journal s existence large portions of PLANT AND SOIL were filled with articles from the Scandinavian countries and The Nether lands Originally rather frequent use was made of the opportunity to publish also in German and French but with the advance of English as a major language of communication a decline was noticeable in the number of German and French manuscripts submitted As a consequence the Edi torial Board has recently decided to terminate the publishing of articles in these languages Forest Monitoring,2013-03-16 The demand for comparable long term high quality data on forest ecosystems status and changes is increasing at the international and global level Yet sources for such data are limited and in many case it is not possible to compare data from different monitoring initiatives across space and time because of methodological differences Apart from technical manuals there is no comprehensive multidisciplinary scientific peer reviewed reference for forest monitoring methods that can serve and support the user community This book provides in a single reference the state of the art of monitoring methods as applied at the international level The book present scientific concepts and methods that form the basis of the transnational long term forest monitoring in Europe and looks at other initiatives at the global level Standardized methods that have been developed over two decades in international forest monitoring projects are presented Emphasis is put on trans nationally harmonized methods related data quality issues current achievements and on remaining open questions A comprehensive overview of needs requirements organization and possible outcomes of an integrated monitoring program Tested and quality assured internationally harmonized methodologies based on a complete revision of existing methods carried out in 2009 2011 Connection with monitoring results allows assessment of the potential of the monitoring method Financial Cryptography and Data Security Roger Dingledine,Philippe Golle,2009-07-21 This volume contains the proceedings of the 13th International Conference on Financial Cryptography and Data Security held at the Accra Beach Hotel and Resort Barbados February 23 26 2009 Financial Cryptography and Data Security FC is a well established int national forum for research advanced development education exploration and debate regarding information assurance in the context of nance and commerce The conference covers all aspects of securing transactions and systems The goal of FC is to bring security and cryptography researchers and pr titioners together with economists bankers and policy makers This year we assembled a vibrant program featuring 21 peer reviewed research paper pres tations two panels on the economics of information security and on authen cation and a keynote address by David Dagon Despite a proliferation of security and cryptography venues FC continues to receive a large number of high quality submissions This year we received 91 submissions 75full lengthpapers 15shortpapersand1panel Eachsubmission was reviewed by at least three reviewers Following a rigorous selection ranking

and discussion process the Program Committee accepted 20 full length papers 1 short paper and 1 panel The overall acceptance rate was 24%
