Making Sense of Research Elaine K. McEwan, Patrick J. McEwan, 2003-03-14 How can educators make sense of the complexities of research Making Sense of Research brings together the best of two worlds the real world where education is practiced daily and the ivory tower world where research is ongoing The authors have written this book for practitioners at all levels from teachers making site specific decisions such as allocating time to administrators making schoolwide and policy decisions such as reducing class size They outline and explain how quality research can inform enlighten and provide direction to educators that will save time and money as well as make schools more effective and increase opportunities for students Educators are increasingly accountable for the outcome of their efforts This vital resource will assist them in assessing the validity of research claims by leading the reader through a revealing examination of five critical questions Does it work the causal question How does it work the process question Is it worthwhile the cost question Will it work for me the usability question Is it working for me the evaluation question Making Sense of Research will change the way you read and think about research and thereby help you enhance school improvement
