Fundamentals of Plan Making Edward J. Jepson, Jr.,Jerry Weitz,2020-12-14 Urban and regional planning programs aspire to prepare practitioners to write and implement comprehensive plans Yet academic planning programs often place greater emphasis on theory than practice To help address this gap Fundamentals of Plan Making gives planning students an understanding of research and methods of analysis that apply to comprehensive planning Its informative text and examples will help students develop familiarity with various data sources and acquire the knowledge and ability to conduct basic planning analyses such as population projections housing needs assessments development impact analyses and land use plans Students will also learn how to implement the various citizen participation methods used by planners and develop an appreciation of the values and roles of practicing planners In this revised second edition Edward Jepson and Jerry Weitz bring their extensive experience as practicing planners and teaching faculty to give planning students the practical hands on tools they need to create and implement real plans and policies With an entirely new census data set expanded discussions of sustainability and other topics as well as new online resources including a companion website the book is now more accessible and more informative and its updated chapters on transportation housing environment economic development and other core planning elements also make it a handy reference for planning practitioners
