TV Guide ,2005 **Star Trek and American Television** Roberta Pearson,Máire Messenger Davies,2014-04-18 At the heart of one of the most successful transmedia franchises of all time Star Trek lies an initially unsuccessful 1960s television production Star Trek The Original Series In Star Trek and American Television Pearson and Messenger Davies take their cue from the words of the program s first captain William Shatner in an interview with the authors It s a television show In focusing on Star Trek as a television show the authors argue that the program has to be seen in the context of the changing economic conditions of American television throughout the more than four decades of Star Trek s existence as a transmedia phenomenon that includes several films as well as the various television series The book is organized into three sections dealing with firstly the context of production the history and economics of Star Trek from the original series 1966 1969 to its final television incarnation in Enterprise 2002 2005 Secondly it focuses on the interrelationships between different levels of production and production workers drawing on uniquely original material including interviews with star captains William Shatner and Sir Patrick Stewart and with production workers ranging from set builders to executive producers to examine the tensions between commercial constraints and creative autonomy These interviews were primarily carried out in Hollywood during the making of the film Nemesis 2002 and the first series of Star Trek Enterprise Thirdly the authors employ textual analysis to study the narrative storyworld of the Star Trek television corpus and also to discuss the concept and importance of character in television drama The book is a deft historical and critical study that is bound to appeal to television and media studies scholars students and Star Trek fans the world over With a foreword by Sir Patrick Stewart Captain Jean Luc Picard in Star Trek The Next Generation **Color by Fox** Kristal Brent Zook,1999-05-13 Following the overwhelming success of The Cosby Show in the 1980s an unprecedented shift took place in television history white executives turned to black dollars as a way of salvaging network profits lost in the war against video cassettes and cable T V Not only were African American viewers watching disproportionately more network television than the general population but as Nielsen finally realized they preferred black shows As a result African American producers writers directors and stars were given an unusual degree of creative control over shows such as The Fresh Prince of Bel Air Roc Living Single and New York Undercover What emerged were radical representations of African American memory and experience Offering a fascinating examination of the explosion of black television programming in the 1980s and 1990s this book provides for the first time ever an interpretation of black TV based in both journalism and critical theory Locating a persistent black nationalist desire a yearning for home and community in the shows produced by and for African Americans in this period Kristal Brent Zook shows how the Fox hip hop sitcom both reinforced and rebelled against earlier black sitcoms from the sixties and seventies Incorporating interviews with such prominent executives producers and stars as Keenen Ivory Wayans Sinbad Quincy Jones Robert Townsend Charles Dutton Yvette Lee Bowser and Ralph Farquhar this study looks at both

production and reception among African American viewers providing nuanced readings of the shows themselves as well as the sociopolitical contexts in which they emerged While black TV during this period may seem trivial or buffoonish to some Color by Fox reveals its deep rooted ties to African American protest literature and autobiography and a desire for social transformation
