Toward a Cultural Archive of la Movida William J. Nichols, H. Rosi Song, 2013-11-26 Toward a Cultural Archive of la Movida revisits the cultural and social milieu in which la Movida an explosion of artistic production in the late 1970s and early 1980s was articulated discursively aesthetically socially and politically We connect this experience with a broader national and international context that takes it beyond the city of Madrid and outside the borders of Spain This collection of essays links the political and social undertakings of this cultural period with youth movements in Spain and other international counter cultural or underground

movements Moving away from biographical experiences or the identification of further participants and works that belong to laMovida the articles collected in this volume situate this movement within the political and social development of post Franco Spain Finally it also offers a reading of recent politically motivated recoveries of this cultural phenomenon through exhibitions state sponsored documentaries musicals or tourist itineraries The perception of Spain as representative of a successful dual transition from dictatorship to democracy and free market capitalism created a Spanish model that has been emulated in countries like Portugal Argentina Chile and Hungary all formerly ruled by totalitarian regimes While social scientists study the promises contradictions and failures of the Spanish Transición especially on issues of memory repression and the lack of reconciliation our approach from the humanities offers another vantage point to a wider discussion of an unfinished chapter in recent Spanish history by focusing on laMovida as the cultural archive whose cultural transitions parallel the political and economic ones The transgressive urban nature of this movement demonstrated an overt desire especially among Spanish youth to reach onto a global arena emulating the punk and new wave aesthetic of such cities as London New York Paris and Berlin Art design film music fashion during this period helped to forge a sense of a modern urban identity in Spain that also reflected the tensions between modernity and tradition global forces and local values international mass media technology and regional customs

Transatlantic Studies Cecilia Enjuto Rangel, Sebastiaan Faber, Pedro Garcia-Caro, Robert Patrick Newcomb, 2019 This book emerges from and performs an ongoing debate about transatlantic approaches in the fields of Iberian Latin American African and Luso Brazilian studies In thirty five short essays leading scholars reframe the intertwined cultural histories of the transnational spaces encompassed by the former Spanish and Portuguese empires

Medicine, Power, and the Authoritarian Regime in Hispanic Literature Oscar A. Pérez, 2021-12-30 This book offers a substantial examination of how contemporary authors deal with the complex legacies of authoritarian regimes in various Spanish speaking countries It does so by focusing on works that explore an under studied aspect the reliance of authoritarian power on medical notions for political purposes From the Porfirian regime in Mexico to Castro's Cuba this book describes how such regimes have sought to seize medical knowledge to support propagandistic ideas and marginalize their opponents in ways that transcend specific pathologies political ideologies and geographical and temporal boundaries *Medicine Power and the Authoritarian Regime in Hispanic Literature* brings together the work of literary scholars cultural critics and historians of medicine arguing that contemporary authors have actively challenged authoritarian narratives of medicine and disease In doing so they continue to re-examine the place of these regimes in the collective memory of Latin America and Spain

Literature of Crisis Olga Bezhanova, 2017-07-28 The book explores novels essays and poetry published by Spanish writers in response to the global economic crisis that began in 2008 Spain has been experiencing the crisis in a particularly painful way and the artistic response to these traumatic events has been powerful and abundant The literature of the crisis is pointing to the probability that the crisis is not a temporary problem that will be

resolved once and for all if correct economic measures are taken To the contrary there is every reason to believe that the losses in long term employment the growing precariousness of work the increased economic insecurity the citizens disillusionment with the capacity of democratic governments to withstand the pressures of global capital the erosion of the welfare state and the explosive growth in inequality that we associate with the crisis are not likely to be reversed Spanish artists are exploring the reasons behind Spain's particularly painful experience of the crisis and at the same time are placing the suffering that the crisis is causing in Spain within the context of global developments that are ensuring its durability Essays by Antonio Muñoz Molina and Lucía Etxebarria novels by Rafael Chirbes Luis García Montero Benjamín Prado and Belén Gopegui and poetry by the artists who contributed to the collections titled *En legítima defensa* *Poetas en tiempos de crisis* and *Marca da España Retrato póstico de una sociedad en crisis* point to the necessity of expanding our vision of the crisis from the purely financial to a broader definition that will include the changes the crisis augurs for the areas of human existence that lie outside the strictly economic realm

New Journeys in Iberian Studies Mark Gant, Anneliese Hatton, Paco Ruzzante, 2018-07-27 The research collected in this volume consists of 18 chapters which explore a number of key areas of investigation in contemporary Iberian studies As the title suggests there is a strong emphasis on transnational and transregional approaches to the subject area reflecting current discourse and scholarship but the contributions are not limited by these approaches and include an eclectic range of recent work by scholars of history politics literature the visual arts and cultural and social studies often working in transdisciplinary ways The geographical scope of the transnational processes considered range from intra Iberian interconnections to those with the UK Italy and Morocco as well as transatlantic influences between the Peninsula and Argentina Cuba and Brazil The book opens up some pioneering new directions in research in Iberian studies as well as variety of fresh approaches to hitherto neglected aspects of more familiar issues

The Op-Ed Novel Bécquer Seguí, 2024-01-09 The Op-Ed Novel follows a clutch of globally renowned Spanish novelists who swept into the political sphere via the pages of *El País* Their literary sensibility transformed opinion journalism and their weekly columns changed their novels which became venues for speculative historical claims partisan political projects and intellectual argument

Memory and Spatiality in Post-Millennial Spanish Narrative Lorraine Ryan, 2016-04-22 Focusing on literary texts produced from 2000 to 2009 Lorraine Ryan examines the imbrication between the preservation of Republican memory and the transformations of Spanish public space during the period from 1931 to 2005 Accordingly Ryan analyzes the spatial empowerment and disempowerment of Republican memory and identity in Dulce Chacón's *Cielos de barro* ngeles López's *Martina la rosa* n mero

trece Alberto M ndez s Los girasoles ciegos Carlos Ruiz Zaf n s La sombra del viento Emili Teixidor s Pan negro Bernardo Atxaga s El hijo del acordeonista and Jos Mar a Merino s La sima The interrelationship between Republican subalternity and space is redefined by these writers as tense and constantly in flux undermined by its inexorable relationality which leads to subjects endeavoring to instill into space their own values Subjects erode the hegemonic power of the public space by articulating in an often surreptitious form their sense of belonging to a prohibited Republican memory culture In the democratic period they seek a categorical reinstatement of same on the public terrain Ryan also considers the motivation underlying this coterie of authors commitment to the issue of historical memory an analysis which serves to amplify the ambits of existing scholarship that tends to ascribe it solely to postmemory

Liminal Fiction at the Edge of the Millennium Jessica A. Folkart, 2014-10-08 Liminal Fiction at the Edge of the Millennium The Ends of Spanish Identity investigates the predominant perception of liminality identity situated at a threshold neither one thing nor another but simultaneously both and neither caused by encounters with otherness while negotiating identity in contemporary Spain Examining how identity and alterity are parleyed through the cultural concerns of historical memory gender roles sex religion nationalism and immigration this study demonstrates how fictional representations of reality converge in a common structure wherein the end is not the end but rather an edge a liminal ground On the border between two identities the end materializes as an ephemeral limit that delineates and differentiates yet also adjoins and approximates In exploring the ends of Spanish fiction both their structure and their intentionality Liminal Fiction maps the edge as a constitutive component of narrative and identity in texts by Najat El Hachmi Cristina Fern ndez Cubas Javier Mar as Rosa Montero and Manuel Rivas In their representation of identity on the edge these fictions enact and embody the liminal not as simply a transitional and transient mode but as the structuring principle of identification in contemporary Spain

Gender and Memory in the Postmillennial Novels of Almudena Grandes Lorraine Ryan, 2021-04-21 Almudena Grandes is one of Spain s foremost women s writers having sold over 1 1 million copies of her episodios de una guerra interminable her six volume series that ranges from the Spanish Civil War to the democratic period the myriad prizes awarded to her 18 in total confirm her pre eminence This book situates Grandes s novels within gendered philosophical and mnemonic theoretical concepts that illuminate hidden dimensions of her much studied work Lorraine Ryan considers and expands on existing critical work on Grandes s oeuvre proposing new avenues of interpretation and understanding She seeks to debunk the arguments of those who portray Grandes as the proponent of a sectarian eminently biased Republican memory by analysing the wide variety of gender and perpetrator memories that proliferate in her work The intersection of perpetrator memory with masculinity ecocriticism medical ethics and the child s perspectives confirms

Grandes nuanced engagement with Spanish memory culture Departing from a philosophical basis Ryan reconfigures the Republican victim in the novels as a vulnerable subject who attempts to flourish thus refuting the current critical opinion of the victim as overly empowered The new perspectives produced in this monograph do not aim to suggest that Grandes is an advocate of perpetrator memory rather it suggests that Grandes is committed to a more pluralistic idea of memory culture whereby her novels generate understanding of multiple victim perpetrator and gender memories an analysis that produces new and meaningful engagements with these novels Thus Ryan contends that Grandes s historical novels are infinitely more complex and nuanced than heretofore conceived *Two cines con niño* Erin K. Hogan, 2018-04-30 The first scholarly edition of Walter Scott s most complex historical narrative poem 1808 Exploring Text, Media, and Memory Patrizia Lombardo, Lars SAetre, Lars S'tre, Sara Tanderup Linkis, 2018-12-31 Exploring Text Media and Memory investigates the link between memory and media by asking a series of questions pertinent to our time How do individual and collective memories blend How do traumatic experiences from past events and catastrophic projections of the future reveal the human condition in the epoch of frenetic technological reproduction of works of art How is the human body tied to narrations and why A group of international scholars tackle questions like these across art forms media and cultural history In nineteen essays they argue that modern and contemporary literary texts and visual arts show how photography film tape recording television and internet are not just means of storing memory and information but objects that we interact with every day challenging static visions of places and the linear notions of past present and future Times Alone Antonio Machado, 2012-01-01 Antonio Machado a school teacher and philosopher and one of Spain s foremost poets of the twentieth century writes of the mountains the skies the farms and the sentiments of his homeland clearly and without narcissism Just as before I m interested in water held in but now water in the living rock of my chest Machado has vowed not to soar too much he wants to go down to the hells or stick to the ordinary Robert Bly writes in his introduction He brings to the ordinary to time to landscape and stony earth to bean fields and cities to events and dreams magical sound that conveys order penetrating sight and attention The poems written while we are awake are more original and more beautiful and sometimes more wild than those made from dreams Machado said In the newspapers before and during the Spanish Civil War he wrote of political and moral issues and in 1939 fled from Franco s army into the Pyrenees dying in exile a month later When in 1966 a bronze bust of Machado was to be unveiled in a town here he had taught school thousands of people came in pilgrimage only to find the Civil Guard with clubs and submachine guns blocking their way This selection of Machado s poetry beautifully translated by Bly begins with the Spanish master s first book *Times Alone* *Passageways in the House and Other Poems* 1903 and follows his work to the poems published after his death *Poems from the Civil War* written during 1936 1939
