Malignant Effusions Pleuritis Ascites Pericardites:

Malignant Effusions Mikhail V. Kiselevsky, 2012-09-15 Malignant effusions pleuritis ascites and pericarditis are some of the most frequent manifestations of dissemination process of malignant tumors Accumulation of the malignant fluid in serous cavities results in impairment of respiratory and cardiac functions however long term evacuation of the fluid leads to severe disorders of homeostasis that may directly cause the patient's death The aim of this comprehensive book is to provide detailed information of pathogenesis and management of malignant effusions The current book focuses on three of these categories pleuritis ascites and pericarditis This book written by recognized experts in the field provides a detailed overview of current knowledge on this subject The presented book reports valuable information about malignant effusions to basic and clinical medical specialists in academia practice as well as industry The main topics considered include contemporary diagnostic approaches and modern therapeutic strategies including conventional drugs methods of intracavitary adoptive immunotherapy chemotherapy and hyperthermia commercial and experimental drugs being still under study The material is presented in an easy to read and understandable language and uses a plethora of tables and figures This book is aimed at oncologists as well as phthisiatrician surgeons therapists and physicians of various specializations who have to make diagnosis and treat effusions during their professional activity and it will be undoubtedly helpful for interns post graduates and Ph D fellows of medical centers

DeVita, Hellman, and Rosenberg's Cancer Vincent T. DeVita, Theodore S. Lawrence, Steven A. Rosenberg, 2008 Presenting comprehensive cutting edge information on the science of oncology and the multimodality treatment of every cancer type this eighth edition now in full color contains more than 40 brand new chapters and more than 70 chapters have been rewritten by new contributing authors

Cytology of Transudates and Exudates E. von Haam, 1977-05-11 Concise Manual of Hematology and Oncology Michael Andreeff, Dietmar P. Berger, Benjamín Koziner, Monika Engelhardt, Hans A. Messner, Hartmut Henß, Roland Mertelsmann, N. Thatcher, 2008-05-16 A real boon for medical practitioners from a number of disciplines this is a practice oriented manual of medical oncology and hematology for day to day use in caring for patients hematologic and neoplastic diseases It is founded on the longstanding experience of a large specialized university department accustomed to having to provide reliable advice in a broad range of circumstances The authors have chosen not to give a comprehensive review of the various subjects but have instead focused on practical methods which have proven to be useful in their experience with special emphasis on standardizing chemotherapy protocols

Oncologic Therapies Everett E. Vokes, Harvey M. Golomb, 2011-06-28 Our goal for this second edition of Oncologic Therapies is to again provide a brief introduction to the principles and practice of oncology and to oncologic therapies The book provides a description of the major treatment modalities including surgery radiation therapy and systemic therapies including classic chemotherapy and biological therapies as well as a brief overview of supportive care and quality of life assessments This is followed by a discussion of site specific cancers covering the hematologic malignancies and solid tumors

Each chapter is designed to provide a brief discussion of background information including epidemiology risk factors and staging principles followed by a description of standard therapies according to stage as well as current investigational approaches While the major pathological and clinical features of each disease are discussed the emphasis of this book is clearly on the state of the art of standard and investigational therapies for each tumor type As such this book should be useful to general internists with an interest in oncology as well as housestaff and junior oncologists of all major oncologic modalities seeking a brief and focused patient management resource References providing more depth discussion for each field are also provided We recommend that any information pertaining to specific chemotherapy regimens and dosing be confirmed in a primary reference since we cannot exclude the possibility of an occasional typographical error **Cancer**
