Mammys Boy In Delhi English Edition:

The Mama's Boy Myth Kate Stone Lombardi, 2012-03-15 A New York Times contributor offers a radical reexamination of a hot button issue of the mother and son relationship and advocates the end of the mama's boy taboo New York Times contributor Kate Stone Lombardi unveils the surprisingly close relationship between mothers and sons Mother after mother confessed to Lombardi that her husband brothers and even female friends and family criticize the fact that she is too close to her sons Many of these women are often startled by the strong connection they feel with their sons but rarely do they talk about it because society tells them to push their little boys away and not baby them with too much cuddling and comforting It is as if there were an existing playbook based on gender preconceptions dating back to Freud Oedipus and beyond that prescribes the way mothers and their sons should interact Lombardi's much needed narrative is the first and only book to share truly revealing interviews with mothers who have close relationships with their sons as well as interviews with these women's sons and husbands Lombardi persuasively argues that the rise of the new male one who is more emotionally intelligent and more sensitive without being less manly is directly attributable to women who are rejecting the mama's boy taboo Highlighting new scientific studies The Mama's Boy Myth begins a fresh story one that will be welcomed by mothers fathers and sons alike

Thoo, Thoo! Rahul Bhalla,2021-04-29 Thoo Thoo Counting my blessings is about my experience and my family s experience with a severe case of COVID 19 Many have experienced this yet very little is written about the family s tryst with COVID Told from the perspective of a patient and his family this book is a unique narration of the ups and downs a patient goes through from diagnosis to discharge including one week in the ICU It s a story straight from the heart This is one of those few illnesses in which the patient fights alone as no attendant is allowed in COVID hospitals In a close knit family though the patient is never alone The family suffers too but with different anxieties But through this suffering there are many positives me and my family experienced And some important lessons were learned along the way A 5% survival chance and recuperating from less than 20% lung capacity are not very favorable odds And at times it felt like I would succumb as many around me did But the

strength I derived from my family and friends from the selfless contributions of frontline medical professionals and from the inherent goodness of the human soul is what helped me beat the odds It s a story of positivity humility and eternal gratitude
