

Refutation Paragraph

Although the opposition argues that allowing the use of backpacks during the school day poses a safety threat, this assertion is unfounded. The opposition claims allowing backpacks in the classroom will only increase the possibility of students bringing in drugs and weapons into school. Certainly, this is the case in many high-crime urban areas; however, South Western High School sits in a relatively safe, semi-rural community. Most students are respectful, rule-abiding citizens who want a decent education. In fact, we have no gangs and few fights in our school. Any drug-related issues in the past have been minor, isolated cases involving one or two students who were immediately expelled. Furthermore, the last weapons violation occurred approximately ten years ago, and that student turned himself in upon arriving to school on a Monday, when he realized he had forgotten to remove his hunting knife from his backpack after a weekend of camping with his Boy Scouts troop. This student was also expelled. Thus, this argument against backpacks because they invite criminal behavior is erroneous at best.
