to adopt the French accent you have acquired from watching movies can help you a lot while learning the language Even if French is remotely related to the English language it is more generally compared to other Romance languages such as Spanish and Italian All these three languages were created from the Latin language used by the Romans during their invasions in 1 B C but despite their common origin the evolution of the French language is different from the evolution of Italian and Spanish which still share a lot of similarities even up to today Currently there are around thirty countries who name French as one of their official languages In Canada French is commonly used in the Quebec region only While in Belgium French is used in the Southern area only The spread of the French language can be partly explained by the colonization of several nations in the Pacific Africa and the Caribbean by France On top of that the French language was actually used as the official language for international diplomacy until the initial years of the twentieth century when the English language took over Here Is A Preview Of What Is Inside The French Language Pronunciation Tools for Building Phrases Basic Vocabulary Words and Phrases Socializing in French Much much more Purchase your copy today *French For Dummies* Dodi-Katrin Schmidt,Michelle M.
