Educating About/for Food Security Through Environmental Education Alishia A. Valeri, 2024-10-01 This text is relevant for members of faculties of education such as administrators of teacher education programs, teacher educators for pre-service and/or inservice teachers and teacher candidates. There is also a potential appeal to professors in higher education institutions as integration practices can be adapted to meet the requirements across disciplines. K-12 classroom-based teachers may find this text useful as a source for content-based learning, either from disciplinary or cross-disciplinary practice, as well as individuals serving in an educational capacity in community-based settings. For instance, parts of this work have already been presented in both US and Canadian-based conferences such as the American Educational Research Association and the Canadian Society for the Study of Education and serve as optimal venues to reach the academic market. Advertising in publications geared towards providing practical articles could also serve as a way to reach classroom-based and community-based educators.

ENDORSEMENTS Everybody needs to eat. Unfortunately, too many communities live food insecure, and to not address this in our education system is a massive problem. Valeri, in the book *Educating about food security through Environmental Education*, offers brilliant insight through the study of integrating food security into teacher education. In doing so, Valeri shares the importance of language and specifically root metaphors in addressing food security as a deep cultural problem rather than one of natural occurrence, and this book highlights generative ways to not only address food security in teacher education but also to prepare teachers that feel empowered to make very real material changes in their classrooms and communities.

John Lupinacci, Washington State University In light of climate change and the impacts it will inevitably have on food production and distribution, *Educating about food security through EE* is an important study examining the intersections of teacher education, food security, and sustainability. Examining ways in which educators and researchers ought to integrate food security into classrooms while also examining the cultural causes of systemic inequity, this book is important for teacher educators who are interested in further incorporating food security and sustainability into their classrooms.

Brandon Edwards Schuth, Oulu, Finland [EdPsych Modules](#)

Cheryl Cisero Durwin, Marla Reese-Weber, 2019-12-04 *EdPsych Modules* uses an innovative modular approach and case studies based on real-life classroom situations to address the challenge of effectively connecting theory and research to practice. Succinct stand-alone modules are organized into themed units and offer instructors the flexibility to tailor the book's contents to the needs of their course. The units begin with a set of case studies written for early childhood, elementary, middle, and secondary classrooms, providing students with direct insight into the dynamics influencing the future students they plan to teach. All 25 modules highlight diversity, emphasizing how psychological factors adapt and change based on external influences such as sex, gender, race, language, disability status, and socioeconomic background. The Fourth Edition includes over three hundred new references across all 25 modules and expanded coverage of diversity in new diversity-related

research This title is accompanied by a complete teaching and learning package **The Geography of Injustice** Barak Kushner, 2024-03-15 In *The Geography of Injustice* Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan's empire At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge War crimes tribunals Kushner shows allow for the history of the defeated to be heard In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two These narratives and counter narratives form the basis of postwar memory concerning Japan's imperial aims across the region The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history

Symbols of Canada Michael Dawson, Catherine Gidney, Donald Wright, 2018-10-23 From Timbits to totem poles Canada is boiled down to its syrupy core in symbolic forms that are reproduced not only on t-shirts television ads and tattoos but in classrooms museums and courtrooms too They can be found in every home and in every public space They come in many forms from objects like the red uniformed Mountie the maple leaf and the beaver to concepts like free healthcare peacekeeping and saying eh But where did these symbols come from what do they mean and how have their meanings changed over time *Symbols of Canada* gives us the real and surprising truth behind the most iconic Canadian symbols revealing their contentious and often contested histories With over 100 images this book thoroughly explores Canada's true self while highlighting the unexpected twists and turns that have marked each symbol's history **Digitally Supported**

Disciplinary Literacy for Diverse K-5 Classrooms Jamie Colwell, Amy Hutchison, Lindsay Woodward, 2020 This book focuses on how elementary teachers might plan for and incorporate digitally supported disciplinary literacy into English Language Arts Mathematics Science and Social Studies to reach all learners To do so the authors present the six phase Planning Elementary Digitally Supported Literacy PEDDL Framework along with four core practices useful for considering elementary disciplinary literacy After grounding disciplinary literacy in elementary grades how it might support all learners and the rationale for its inclusion in K-5 instruction core practices are presented along with a rationale behind those practices Then the authors provide an in-depth overview of the PEDDL Framework with examples and research based underpinnings of each phase Finally a paired chapter approach then guides readers through each of the four core disciplines to first overview practices particular to each discipline that are appropriate for elementary grades and then provide detailed lesson planning approaches using the PEDDL Framework for each Supplementary lesson plan examples are also offered in

this book for extended consideration of digitally supported disciplinary literacy across K 5 *A Guide to Ontario School Law* Benjamin Kutsyuruba,David Burgess,Keith Walker,J. Kent Donlevy,2014-05 *A Guide to Ontario School Law* is a comprehensive non partisan fair reading of provincial educational statutes regulations and relevant policies that will be a first aid and reference to the lay reader Our goal is to provide an up to date accessible and user friendly guide to various legal parameters for teachers aspiring teachers trustees school administrators central office administration parents and interested community members In particular the resources and insights in this guide are aimed at helping teacher candidates to develop literacy in educational law and policy and ultimately to successfully transition from teacher education programs into teaching careers **Manhood Acts** Michael Schwalbe,2015-11-17 In *Manhood Acts* Michael Schwalbe offers a new perspective on the social construction of manhood and its relationship to male domination Schwalbe argues that study of masculinity has lost touch with its feminist roots and has been seduced by the politically safe notion of multiple masculinities *Manhood Acts* delineates the practices males use to construct women and men as unequal categories Schwalbe reclaims the radical feminist insights that gender is a field of domination not a field of play and that manhood is fundamentally about exerting or resisting control *Manhood Acts* arrives at the conclusion that abolishing gender as a system of oppression will require more than transgressive self presentation It will be necessary to end the exploitive economic relationships that necessitate manhood itself *Aesthetic Teaching Pedagogies* Reynaldo B. Inocian,2018-10-09 This book presents an assortment of teaching and assessment strategies appropriate for 21st century learners based on the author s 25 years of teaching experience in private and state school institutions in the Philippines It highlights the outcomes based assessment of learning the curriculum basics for arts based teaching learning activities based on the integrated arts for an effective instructional process and examples in the teaching of critical thinking communication collaboration and creativity known as the Four Cs While the monograph focuses on the author s local context a plethora of citations provides clear connections that address learner diversity in recent global education contexts The text is a useful guide for students who want to pursue a degree in teaching as well as novice and expert teachers university professors and advocates for teaching and learning
