### Change copy speed or quality

The HP All-in-One, provides three options, indicated by one, two, or three stars, that affect copy speed and quality:

- One star copies faster than the other two quality settings. On plain paper, the text is comparable to the quality of two stars, but the graphics might be of lower quality. This setting uses less ink and extends the life of your print cartridges.

---

 **NOTE:** This setting is not available when the HP All-in-One detects photo paper.

- Two stars delivers high-quality output and is the recommended setting for most of your copying. Two stars copies faster than the three stars quality setting.
- Three stars produces the highest quality output for all paper and eliminates the banding (striping) effect that sometimes occurs in solid areas. Three stars copies slower than the other quality settings.

#### To change the copy quality

1. Load paper in the input tray.
