Jules, 2022-11-03 Drawing on a post-foundational approach to Deleuze and Guattari's seminal work on assemblage theory, this book explores the scholarly field of comparative and international education (CIE). Written by a diverse collection of international scholars from Australia, Ireland, Italy, Malaysia, South Africa, Sweden, Switzerland, the UK, and the USA, the chapters use the assemblage paradigm as an analytical tool to examine the continuously evolving field of CIE. The field of CIE is prone to constant reconfigurations, and this book casts the shaping of the field in a fresh light, prompting new discussions on the field's variability and flexibility.
