The Lonely Mind of God Sherman O'Brien, 2021-01-26 Current students of philosophy or armchair philosophers Want the answer to the Primordial Existential Question Why is there something rather than nothing While history has produced no shortage of attempted answers clearly none is the answer Now comes the unique perspective of acosmism to provide a complete and plausible answer After a lifetime of reflection acosmist Sherman O'Brien offers this analysis of the issues and a thoughtful reasoned answer to philosophy's most vexing question The acosmic answer requires no faith whatsoever either in supernatural or unexplained causes in fact it discourages it Acosmism rejects both traditional religion and philosophically neglectful science As a metaphysical system it is based on an epistemological insight with implications for immortality determinism ethics and ultimate purpose Reasoned wholly from the ground up its conclusion is the very meaning of existence The solution to the Omniscience Riddle becomes the key to understanding how the question is best stated and understood This book represents one person's effort to make sense of what is true and what only seems to be so Why is there something rather than nothing What is your potential role in the entirety of experience This foray into acosmism offers a path to the genuine understanding of both existence and reality Note the main text constitutes roughly two thirds of the total pages the remainder being mostly endnotes

The History of Cadatas' Exploration of the Milky Way Anna Faktorovich, 2024-12-01 At the peak of cadatas technological development their business leaders attempt diverting an asteroid to mine its resources A miscalculated maneuver misses the mine and instead strikes their home world With Cadata in ruins a spaceship with three hundred explorers begins what would become a 100 000 year journey across the Milky Way searching for a habitable world to relocate their perishing population Cadata scientists gene edit pilots to match the dominant species on each planet Even with a 5 000 year lifespan it takes them twenty three generations to reach Earth Chief pilots Wocega and Ortaek and their descendants face thrilling and terrifying challenges Their bodies chemistry covers the spectrum of the periodic table and their consistency alters from alcohol to clouds to metal They are bombarded by diamond rain They are enveloped in the

sunless darkness of a roaming planet They are compressed by pressures of extreme gravity and dense atmospheres Can even the most adaptable species endure a search for a new planet This is the first captivating history of cadatas explorations from one of their expert historians Ortack 23 Assisted by first ever translations of authoritative first person archival accounts of cadata explorers this history traces the geology of Cadata from the formation of this planet through the events that led to its downfall with a record of discoveries about alien habitats and to their present attempts to become legal refugees on Earth This is a one of a kind theoretical and scientific defense of the presence of aliens on Earth and of the scientific breakthroughs they achieved to reach us It is accompanied with a bibliography of sources an index a galactic map of the journey and a chronology of events As humanity commences on its quest for life elsewhere in the universe this encyclopedic study explains varieties of atmospheric conditions and biological organisms as alien to Earth as Earth is to them **OUR FRAGILE**

The Role of Death in Life Fr. John Behr, Conor Cunningham, 2015-08-31 The relation between life and death is a subject of perennial relevance for all human beings and indeed the whole world and the entire universe in as much as according to the saying of ancient Greek philosophy all things that come into being pass away Yet it is also a topic of increasing complexity for life and death now appear to be more intertwined than previously or commonly thought Moreover the relation between life and death is also one of increasing urgency as through the twin phenomena of an increase in longevity unprecedented in human history and the rendering of death dying and the dead person all but invisible people living in the industrialized and post industrialized Western world of today have lost touch with the reality of death This radically new situation and predicament has implications medical ethical economic philosophical and not least theological that have barely begun to be addressed This volume gathers together essays by a distinguished and diverse group of scientists theologians philosophers and health practitioners originally presented in a symposium sponsored by the John
