CCTV Surveillance Herman Kruegle, 2011-03-15. This revision of the classic book on CCTV technology, CCTV Surveillance, provides a comprehensive examination of CCTV, covering the applications of various systems, how to design and install a system, and how to choose the right hardware. Taking into account the ever-changing advances in technology, using digital techniques and the Internet, CCTV Surveillance, Second Edition, is completely updated with the recent advancements in digital cameras and digital recorders, remote monitoring via the Internet, and CCTV integration with other security systems. Continuing in the celebrated tradition of the first edition, the second edition is written to serve as a useful resource for the end user as well as the technical practitioner. Each chapter begins with an overview and presents the latest information on the relevant equipment, describing the characteristics, features, and application of each device. Coverage of aging or obsolete technology is reduced to a historical perspective, and eight brand new chapters cover digital video technology, multiplexers, integrated camera lens housing, smart domes, and rapid deployment CCTV systems. Serves as an indispensable resource on CCTV theory. Includes eight new chapters on the use of digital components and other related technologies that have seen a recent explosion in use. Fully illustrated, the book contains completely updated photographs and diagrams that represent the latest in CCTV technology advancements.

Encyclopedia of Security Management John Fay, 2007-05-02. The Encyclopedia of Security Management is a valuable guide for all security professionals and an essential resource for those who need a reference work to support their continuing education. In keeping with the excellent standard set by the First Edition, the Second Edition is completely updated. The Second Edition also emphasizes topics not covered in the First Edition, particularly those relating to homeland security, terrorism, threats to national infrastructures (e.g., transportation, energy, and agriculture), risk assessment, disaster mitigation, and remediation, and weapons of mass destruction: chemical, biological, radiological, nuclear, and explosives. Fay also maintains a strong focus on security measures required at special sites such as electric power, nuclear, gas, and chemical plants, petroleum production and refining facilities, oil and gas pipelines, water treatment and distribution systems, bulk storage facilities, entertainment venues, apartment complexes, and hotels, schools, hospitals, government buildings, and financial centers. The articles included in this edition also address protection of air, marine, rail, trucking, and metropolitan transit systems. Completely updated to include new information concerning homeland security and disaster management. Convenient
