MH-382

(Tandem 2-needle, double chainstitching machine)

The machine ensures outstanding reliability and durability.

It comes with JUKI's unique inclined crank type looper mechanism. This gives the machine outstanding durability. You can use the sewing machine for a long time without ever worrying about looper failure.

Stitch length can be adjusted with ease.

The machine incorporates a stitch dial for adjusting the stitch length. For lockstitch machines, which are the most popular type of sewing machines, the stitch length is also adjusted using a stitch dial. This means you can adjust the stitch length as desired without difficulty.

The machine is capable of performing consistent condensation stitching, ensuring finished seams of higher quality.

You can easily set the machine to perform condensation stitching by operating the lever. Condensation stitches that prevent the thread from fraying can be consistently sewn.

Many different kinds of attachments contribute to enhanced production efficiency.

Attachments (optional) have been prepared for many different applications, including sewing sides of jeans, slacks and skirts, hemming pockets, making decorative stitches on tape for sportswear. Furthermore, a chain-off thread cutter (AT-8, optional) that helps enhance production efficiency is also available.
