Teaching Informational Text in K-3 Classrooms Mariam Jean Dreher, Sharon Benge Kletzien, 2015-09-18 Revised edition of Informational text in K 3 classrooms 2004

Graphic Inquiry Daniel Callison, Annette Lamb, 2012-05-03 This full color book provides a practical approach to incorporating graphic inquiry across the curriculum for school library media specialists technology coordinators and classroom teachers It s new It s graphic And it is the first of its kind Designed to bridge theory and actual practice Graphic Inquiry contains applications for new and practicing educators and librarians that can truly bring classroom learning into the 21st century This visually rich book provides numerous standards based inquiry activities and projects that incorporate traditional materials as well as emerging social and collaborative technologies This full color book provides real world strategies for integrating graphic inquiry across the curriculum and is specifically designed to help today s educators identify tools and techniques for using graphic inquiry with their students Although research is cited and references are provided lengthy text passages are avoided in favor of practical visual examples rooted in best practice and presented in graphic format Readers will view this book as a quick reference to timely realistic activities and approaches as compared to a traditional textbook

Good Books Matter Larry Swartz, Debbie Nyman, 2008 Based on extensive research on the features that make children s books appealing and appropriate this valuable teacher resource offers guidance on selecting books strategies for specific grade levels suggestions for extension and tips for assessment This teacher friendly book is organized around the major genres traditional literature picture books nonfiction poetry and multicultural texts that will inspire young readers Throughout the book teachers will find suggestions for using literature to implement shared reading reading aloud and response strategies with emergent developing and independent readers This comprehensive book is rooted in the belief that educators must consider and offer a wide range of choice to ensure that students read good books It argues that the choices children make about what they read should be governed by their interests and desire to learn not by a grade or reading level
