Statistical Abstract , **Monitoring flour fortification to maximize health benefits** ,2021-07-31 **Transforming Research Excellence** McLean, Robert ,Tijssen, Robert,Wallace, Matthew L.,Kraemer-Mbula, Erika,2020-01-18 Modern day science is under great pressure A potent mix of increasing expectations limited resources tensions between competition and cooperation and the need for evidence based funding is creating major change in how science is conducted and perceived Amidst this perfect storm is the allure of research excellence a concept that drives decisions made by universities and funders and defines scientists research strategies and career trajectories But what is excellent science And how to recognise it After decades of inquiry and debate there is still no satisfactory answer Are we asking the wrong question Is reality more complex and excellence in science more elusive than many are willing to admit And how should excellence be defined in different parts of the world particularly in lower income countries of the Global South where science is expected to contribute to pressing development issues despite often scarce resources Many wonder whether the Global South is importing with or without consenting the flawed tools for research evaluation from North America and Europe that are not fit for purpose This book takes a critical view of these issues touching on conceptual issues and practical problems that

inevitably emerge when excellence is at the center of science systems Emerging from the capacity building work of the Science Granting Councils Initiative in sub Saharan Africa it speaks to scholars as well as to managers and funders of research around the world Confronting sticky problems and uncomfortable truths the chapters contain insights and recommendations that point towards new solutions both for the Global South and the Global North **Public Health,**

Disease and Development in Africa Ezekiel Kalipeni,Juliet Iwelunmor,Diana S. Grigsby-Toussaint,Imelda K.

Moise,2018-06-14 The closure of the Millennium Development Goals MDGs in 2015 prompted the need for a book of this kind An interdisciplinary group of global health scholars contribute to the understanding of the emerging and fast growing problem of the dual burden of communicable and non communicable diseases NCDs in Africa This book is timely as the international community has moved from the MDGs to adopt the Sustainable Development Goals SDGs as the blueprint for a new human development agenda Contributions and case studies are situated in the revised Epidemiologic and Nutrition Transition Model to capture the current situation referencing communicable and NCDs on the African continent The case studies encapsulated aim to help minimize negative health outcomes and improve population health well being and equity in the future This book will be significant in policy circles to assist international organizations governments and United Nations agencies It aims to chart the future for health in Africa in light of recently adopted SDGs This book is also a useful complementary reader for global public health related courses Gender and Practice Vasilikie (Vicky) Demos,Marcia

Texler Segal,Kristy E. Kelly,2019-09-30 In Gender and Practice Insights from the Field twelve chapters contribute to the creation of an accessible body of knowledge that looks to provide gender practitioners with examples of what works and what doesn't in the attainment of gender equality **Achieving sustainable production of milk Volume 2** Dr Nico van

Belzen,2017-06-06 Summarises current research on pathogenic risks affecting milk and ways they can be controlled on the farm Reviews ways of measuring and reducing the environmental impact of dairy farming such as better grassland management Assesses the wider role of dairy farming and how it can be improved in the developing world **Global report on the state of dietary data** Food and Agriculture Organization of the United Nations,Intake - Center for dietary

assessment,2022-03-09 Diet and nutrition are critical to health well being and longevity The economic and health burdens associated with poor quality diets are a worldwide concern but for low and middle income countries LMICs the long term impact of these burdens has the potential to be especially devastating Many of these LMICs are currently grappling with the deepening multiple burdens of malnutrition with undernutrition nutrient inadequacies and overweight and obesity often presenting simultaneously in communities households and even in single individuals Time relevant data is a necessary and critical component of any process or initiative that aims to ensure healthy diets Robust data on what people eat in a country enables an understanding of current food consumption practices and provides an evidence based foundation for the design and implementation of targeted and well informed actions policies and messaging to address the key issues related to healthy

eating The purpose of this report is to take stock and celebrate the collection and use of dietary data in LMICs and generate further momentum for investment in government led dietary surveys in LMICs Section 1 provides a global overview of dietary surveys carried out in LMICs from 1980 through 2019 analysing key characteristics and trends over time Section 2 celebrates the increased investment in dietary surveys in LMICs by highlighting country stories related to dietary survey initiation implementation and data use Section 3 is aimed at generating further momentum for investment in government led dietary surveys in LMICs by illustrating through data visualizations the type of information dietary data can provide for policy makers **Annual Budget Monitoring Report** Uganda,2015 *Clinical Epidemiology of Chronic Liver Diseases* Robert J.

Wong,Robert G. Gish,2018-10-24 This book emphasizes the clinical epidemiology of chronic liver diseases with a specific focus on the methodology of the discussed studies The whole spectrum of liver diseases is covered from chronic hepatitis B and C to hepatocellular carcinoma alcoholic and non alcoholic fatty liver diseases and autoimmune and cholestatic liver diseases Readers will find the most up to date information on clinical epidemiology of hepatology and will also be able to learn about important methodology and biostatistics information Each chapter contains a summary table at the end of each chapter that highlights the most relevant landmark studies their main outcomes and the unique features of the methodology The book will appeal to both practicing clinicians as well as clinical research investigators In addition this would likely be of interest to medical school or public health school students to learn about hepatology epidemiology but also some specific fundamentals of clinical research and clinical epidemiology **Administrator and Scholar** David J.
