**The Dominions Office and Colonial Office List for ...** Great Britain. Office of Commonwealth Relations,1940      **The Colonial Office List, Comprising Historical and Statistical Information Respecting the Colonial Empire, List of Officers Serving in the Colonies, Etc ,**1947      *The Colonial Office List* Great Britain. Colonial Office,1946      *The National Council for Higher Education and the Growth of the University Sub-sector in Uganda, 2002-2012* Kasozi, A.B.K.,2017-05-05 The National Council for Higher Education NCHE and the Growth of the University Sub sector in Uganda 2002 2012 narrates the experience of the Ugandan NCHE in the establishment development and regulation of higher education institutions in Uganda from 2002 to 2012 In this period student numbers in higher education institutions increased from about 65 000 to some 200 000 and university institutions from about ten to more than triple the number The book discusses the role of a regulatory agency in the delivery of higher education the relations of universities and colleges with such an agency its impact on developing university capacities and leadership in creating and refining higher education ideas The experience of Uganda s regulatory agency the NCHE in those ten years should help both the Ugandan and other African countries higher education stakeholders in sharing lessons learned from this one case study The author sees the roles of regulatory agencies as vital in the initial stages of building a higher education sub sector and in periods of system transitions such as the current journey from elite to mass systems but is of the view that the university remains the home of knowledge creation dissemination and its application in society      **Scholars in the Marketplace. The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005** Mahmood Mamdani,2007 Scholars in the Marketplace is a case study of market based reforms at Uganda s Makerere University With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa it has implications for the whole continent At the global level the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good Instead of pitting the public against the private and the state against the market this book shifts the terms of the debate toward a third alternative than explores different relations between the two The book distinguishes between privatisation and commercialisation two processes that drove the Makerere reform It argues that whereas privatisation the entry of privately sponsored students is compatible with a public university where priorities are publicly set commercialisation financial and administrative autonomy for each faculty to design a market responsive curriculum inevitably leads to a market determination of priorities in a public university The book warns against commercialisation of public universities as the subversion of public institutions for private purposes      **Colonial Office List ... ,**1939      Enhancing Innovation in the Ugandan Agri-Food Sector: Robusta Coffee Planting Material & Tropical Fruit Processing World Intellectual Property Organization,Travis J. Lybbert,Gracious Diiro,Dick Kawooya,Sacha Wunsch-Vincent,2017 Uganda s innovation performance

in recent years has consistently outpaced other low income and Sub Saharan African countries Though encouraging this nascent progress will only benefit the broader Ugandan population if policy makers address specific constraints in the innovation systems of the critical agri food sector which is hampered by low productivity and profitability In this report we explore these constraints using an agricultural value chains framework with particular focus on the Robusta Coffee Planting Material Pipeline and tropical fruit processing

**States and Public Policy** Olivier Provini, 2025-08-03 Why did students start paying tuition fees at African universities How did public universities become increasingly expensive for the large numbers of young people they are supposed to be educating This book helps us to understand the reasons for this and reminds us that change is always the result of political compromise The book looks at the higher education reforms carried out since the 1980s in four East African countries with unique historical and political trajectories Uganda Kenya Tanzania and Burundi Through a rigorous well documented analysis the author provides valuable insights into the fundamental political issues facing development actors in the South the transformation of state intervention the training of national elites and the marketing of the education sector particularly through the highly political issue of school fees *Annual Report* Uganda Education Department, 1953

**"The Government and Administration of Africa, 1880-1939 Vol 1 "** Casper Anderson, 2017-07-05 This collection makes available rare sources on the aims functions and effects of British administration in Africa Topics examined include land and urban administration law and jurisprudence taxation and administration of natural resources

**Manufacturing Transformation** Carol Newman, John Page, John Rand, Abebe Shimeles, Måns Söderbom, Finn Tarp, 2016-07-14 While it is possible for economies to grow based on abundant land or natural resources more often structural change the shift of resources from low productivity to high productivity sectors is the key driver of economic growth Structural transformation is vital for Africa The region's much lauded growth turnaround since 1995 has been the result of making fewer economic policy mistakes robust commodity prices and new discoveries of natural resources At the same time Africa's economic structure has changed very little Primary commodities and natural resources still account for the bulk of the region's exports Industry is most often the leading driver of structural transformation Africa's experience with industrialization over the past thirty years has been disappointing In 2010 sub Saharan Africa's average share of manufacturing value added in GDP was ten per cent unchanged from the 1970s Actually the share of medium and high tech goods in manufacturing production has been falling since the mid 1990s Per capita manufactured exports are less than ten per cent of the developing country average Consequently Africa's industrial transformation has yet to take place This book presents results of comparative country based research that sought to answer a seemingly simple but puzzling question why is there so little industry in Africa It brings together detailed country case studies of industrial policies and industrialization outcomes in eleven countries conducted by teams of national researchers in partnership with international experts on industrial development It provides the reader with the most comprehensive description and analysis available to date of the

contemporary industrialization experience in low income Africa This is an open access title available under the terms of a CC BY NC SA 3.0 IGO licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations

Health Economics Barbara McPake, Charles E. M. Normand, 2008 This popular textbook provides a comprehensive but accessible coverage of health economic principles and applications It provides an introduction for those with no previous knowledge of economics but also more advanced material suitable for those with a background in economics Now into its second edition Barbara McPake and Charles Normand have incorporated developments in economic evaluation and economics of health systems from recent research and experience while retaining an accessible approach and style The book starts with a section on basic economic principles as applied to health and health care and goes on to discuss economic evaluation in health care the economics of health systems and health care finance Examples and illustrations are taken from a wide range of settings and world regions reflecting the authors belief that the same principles apply and that it is useful to have some understanding of how different countries organise the health system It provides an understanding of the performance of different health systems from the insurance based approaches in the United States to government funding that is common in Canada and most countries in Europe and the mixed systems that operate in most low income countries This book is ideal for students in public health and related courses for health care professionals and those studying health economics at a more advanced level

**The Government and Administration of Africa, 1880-1939** Andrew Cohen, 2017-11-01 This collection makes available rare sources on the aims functions and effects of British administration in Africa Topics examined include land and urban administration law and jurisprudence taxation and administration of natural resources
