Male Slaves Drawings Bondage:

Forced Womanhood, 1996 *The Captive Sea* Daniel Hershenzon, 2018-08-01 In *The Captive Sea* Daniel Hershenzon explores the entangled histories of Muslim and Christian captives and by extension of the Spanish Empire Ottoman Algiers and Morocco in the seventeenth century to argue that piracy captivity and redemption helped shape the Mediterranean as an integrated region at the social political and economic levels Despite their confessional differences the lives of captives and captors alike were connected in a political economy of ransom and communication networks shaped by Spanish Ottoman and Moroccan rulers ecclesiastic institutions Jewish Muslim and Christian intermediaries and the captives themselves as well as their kin Hershenzon offers both a comprehensive analysis of competing projects for maritime dominance and a granular investigation of how individual lives were tragically upended by these agendas He takes a close look at the tightly connected and ultimately failed attempts to ransom an Algerian Muslim girl sold into slavery in Livorno in 1608 the son of a Spanish marquis enslaved by pirates in Algiers and brought to Istanbul where he converted to Islam three Spanish Trinitarian friars detained in Algiers on the brink of their departure for Spain in the company of Christians they had redeemed and a high ranking Ottoman official from Alexandria captured in 1613 by the Sicilian squadron of Spain Examining the circulation of bodies currency and information in the contested Mediterranean Hershenzon concludes that the practice of ransoming captives a procedure meant to separate Christians from Muslims had the unintended consequence of tightly binding Iberia to the Maghrib A Fragile Freedom Erica Armstrong Dunbar, 2008-10-01 Chronicling the lives of African American women in the urban north of America particularly Philadelphia during the early years of the republic *A Fragile Freedom* investigates how they journeyed from enslavement to the precarious state of free persons in the decades before the Civil War **Caught between Worlds** Joe Snader, 2021-10-21 The captivity narrative has always been a literary genre associated with America Joe Snader argues however that captivity narratives emerged much earlier in Britain coinciding with European colonial expansion the development of anthropology and the rise of liberal political thought Stories of Europeans held captive in the Middle East America Africa and Southeast Asia appeared in the British press from the late sixteenth through the late eighteenth centuries and captivity narratives were frequently featured during the early development of the novel Until the mid eighteenth century British examples of the genre outpaced their American cousins in length frequency of publication attention to anthropological detail and subjective complexity Using both new and canonical texts Snader shows that foreign captivity was a favorite topic in eighteenth century Britain An adaptable and expansive genre these narratives used set plots and stereotypes originating in Mediterranean power struggles and relocated in a variety of settings particularly eastern lands The narratives rhetorical strategies and cultural assumptions often grew out of centuries of religious strife and coincided with Europe's early modern military ascendancy *Caught Between Worlds* presents a broad rich and flexible definition of the captivity narrative placing the American strain in its proper place within the tradition as a whole Snader having assembled

the first bibliography of British captivity narratives analyzes both factual texts and a large body of fictional works revealing the ways they helped define British identity and challenged Britons to rethink the place of their nation in the larger world
