Manuale Diritto Privato Gazzoni:

Manuale di diritto privato Francesco Gazzoni, 1996 **Istituzioni di diritto privato**, 2004 **Foundations of Property Law** Christian von Bar, 2023-08-10

Foundations of Property Law Things as Objects of Property Rights is an abridged translation of the first volume of Christian von Bar's *Gemeineuropäisches Sachenrecht* a milestone in European private law theory and in comparative property law more broadly. Radical in content and scope the English version examines the dynamics of interaction between the objects contents and holders of property. The conceptual framework of property law is presented as a domain of erga omnes monopoly rights that govern the relationship between persons and objects of value. Within that framework a reciprocal relationship is illustrated between property rights and their objects property rights play a role in constituting the very objects things in which they are held. With comprehensive comparative analysis insights are gleaned from all the jurisdictions of the European Union and the United Kingdom presenting a critical evaluation of property law systems in both Common and Civil Law traditions. This book joins all the national legal systems in a single inquiry treating their traditions and arguments with the respect they deserve and taking advantage of the knowledge embodied in the diversity of European private law. A scholastic work offering deep and unique insights into the European property law systems Foundations of Property Law will quickly become a go to resource for anyone interested in European private law and comparative property law.

Principles of European Contract Law Commission on European Contract Law, 2003-03-01

This volume offers proposed Articles followed by comments and information. Topics include plurality of debtors and creditors assignment substitution of new debtor and transfer of contract set off prescription illegality and conditions and capitalisation of interest.

Diritto civile, 2009 **La responsabilità civile ed il danno** Luigi Viola, 2007 **Principles of European Contract Law and Italian Law** Luisa Antonioli, Anna Veneziano, 2005-01-01

To provide valuable legal service to persons in today's Europe practitioners must be conversant in both national and transnational law. At the European level the Principles of European Contract Law (PECL) are an increasingly important element of contract law together with national contract law as contained in Civil Codes and various national statutes. Accordingly Kluwer Law International has initiated a series of volumes under the direction of Prof. Hondius of the University of Utrecht comparing PECL with the most important European legal systems. This volume on Italian law is the second in the series. Using a straightforward comparative method the editors' analysis not only reveals a significant area of convergence between the PECL and Italian contract law but also highlights the main differences between the two bodies of rules. The reasons for these differences both legal and non legal such as historical social economic are clearly set forth. The book provides complete texts with annotations of the PECL and the corresponding Italian rules. The presentation proceeds as follows: general provisions scope of application general duties terminology formation of contracts general provisions offer and acceptance liability for negotiations authority of agents general provisions direct and indirect representation validity interpretation contents and effects performance non performance and remedies in

general particular remedies for non performance right to performance withholding performance termination of the contract price reduction damages and interest The editors commentary includes extensive reference to case law and legal doctrine at all essential points In this way they provide a comprehensive description of the law in action as well as its evolving trends In addition incisive essays by two leading experts in the field of comparative law prof Rodolfo Sacco and prof Michael Joachim Bonell analyse the relationship of the PECL and Italian law and its wider framework in the harmonisation of private law at the European and international levels The book is a valuable handbook and guide for both foreign and Italian lawyers For non Italian lawyers be they practitioners or academics it provides a concise but complete and up to date outline of current Italian contract law organized on the basis of a system PECL with which many European lawyers are familiar For Italian lawyers it offers a clearer insight into a wider European legal contract system whose importance in the evolution of a common European private law is growing rapidly Principles of European Contract Law Series 2 **La Nuova Giustizia Civile (02/2014)** Luca Tantalò, 2014-03-22 Bimestrale di diritto processuale civile diretto da Luca Tantalò Anno 1 Numero 2 marzo 2014 **Trattato dei diritti reali** Antonio Gambaro, Umberto Morello, 2011 **I contratti atipici** Marco Martorana, 2020-09-21 Il Volume fornisce una disamina dei contratti atipici che negli ultimi anni hanno incontrato una importante diffusione nella prassi delle relazioni commerciali anche con riferimento a settori economici specifici In particolare l'opera si pone come obiettivo quello di fornire al lettore un valido strumento per la redazione dei contratti trattati mediante una attenta analisi delle pronunce giurisprudenziali e degli orientamenti dottrinali
